Just Bowling Along...

Jean Seaman and Robert Carruthers
contemplate tactics.

Milton Reynolds reckons this end is his.

Lake Grace Bowlers scored pleasant weather to open the bowling season with their annual 'Bowl over Cancer' fundraiser on Sunday 2nd October.

Although there was not a large attendance, the field was quality with plenty of fun had by all. Green fees and fines raised \$166.65 for the Cancer Foundation.

The winning team on the day were John Griffin, John McGlinn, Graham Taplin and Jean Seaman. Runners-up were Audrey Evans, Dorothy Reid, Chris Carruthers and Ken Jenks.

This Saturday, 8th October the bowls club will be hosting a 'Bring a Friend Day', which will be sponsored by Steve and Helen Hunt at Lake Grace Communications & Computers. Names to be in by 12:30pm with play to commence at 1:00pm. Casual dress will be fine. Members and non-members are all welcome to attend.

Graham Taplin, Brian Bidwell, Robert Carruthers
and Jean Seaman keep a close eye on the game.

EDITORIAL

- ☺ Thank you to the 'sign collector' who got an attack of the guilts and put the Wave Zone sign back. We all appreciate you doing the right thing.
- ☺ If you are interested in participating in a forklift accreditation course please ring the Telecentre and put your name down. If the numbers are right we will be able to run another one in late February 2006.
- ☺ Is anyone out there interested in F1 Bluecard Training? If so please let me know and we may be able to arrange something.
- ☺ I am arranging an Excel (spreadsheets) course for late October, this is a beginners course. I have a couple of places available so please let me know if you are interested. If you would like more details please don't hesitate to ring.
- ☺ Welcome aboard to Lorraine Seward and Derek McCartney who have joined our happy ☺ little bunch at the Lakes Link News. If you would like to offer some time please don't hesitate to drop in and see me. I would like to be able to do up some kind of volunteer timetable so that everyone who is willing has a go, rather than wear out a few regulars.

We will be running our second block of
'First Click' Beginners Computer
Classes in November.

The classes run over four consecutive
Thursdays (day and evening classes
available) starting on 3rd November.

We'll show you how to:

- make fun, creative posters
- save your documents so that you can find them
- show you how to find those documents in case the previous point didn't work
- Access internet banking and much, much more.....

The Lakes Link News is.....

Jack and Lizzie Lay Family Reunion

Of the 187 descendents of Jack and Lizzie Lay spanning 4 generations, 90 attended an enjoyable get together at the Shire Hall on Sunday 25th September. This was followed on the Monday by a lunch gathering on the original family farm, Hazinelle, now managed by Ron and Bambi Lay.

There was also an opportunity to revisit the little Red School site which the original family attended. Rene Hooper who attended as a student was also the last teacher there and shared some history about the School during her times there.

People travelled from as far as Perth, Busselton, Albany, Esperance, Wongan Hills, Northampton, Geraldton, Katanning and Lake Grace.

The reunion marks 25 years since the death of both Jack and Lizzie, who died within 3 months of each other in 1980. Many early day photos surfaced and were on display in the Hall for all to see, as well as each Family Tree displayed and researched by Vynka Lay. A power point presentation of some more old photos also got people guessing who was who. It was amazing how everyone had grown (aged).

The Lay family was one of the early pioneering families in the area and in another six years it will be 100 years since Jack Lay first came to the area. Based on the success of this reunion, Ron Lay announced that it is planned to have another Reunion around this time which all thought was a great idea. Then the photos from this Reunion can be viewed to see how much more we've all grown.

Reports have already filtered back about how this was a very worthwhile thing to do. Many cousins had lost contact with each other and it was a great opportunity for some of the younger ones to meet each other for the first time.

To any other Lake Grace families thinking along similar lines we would highly recommend the experience. It was well worth it.

Genni Curtin

*Original Brothers and sisters of the Lay family.

SOME OF THE PROBLEMS INVOLVED WITH FARMING TODAY

Fertilizers and chemicals are **too expensive!**
Insurance, handling expenses etc are **too high!**
Grain, wool and produce prices are **lousy!**
It doesn't **rain** the right amount at the right time!

Now, are YOU READY FOR SOME BAD NEWS?

I **can't** make fertilizers and chemicals as cheap as they should be.
I **can't** reduce insurance and handling costs to where they should be.
I **can't** give you the price your grain and wool is worth.
I **can't** make it rain.

OK, WE'VE AGREED ON THAT. NOW HERE IS WHAT I
CAN DO!

I **can** save you a fair amount of money on your major farm inputs.
I **can** offer insurance and handling costs at reduced prices.
I **can** offer you higher prices for your farm produce.

Now, I'm not saying this will make farming easy.
But, it **MAY** make it less difficult!

Do I hear you **LAUGHING** yet? Well, that's cool too.
Here's my challenge.

You enjoy a good laugh, so do I. It only takes a short
phone call to prove me wrong! **GO FOR IT!**

BOMB

Graham Jacobs MLA Member for Roe

Transport operators ignored by Government

Operators face 167 per cent registration fee increase on top of high fuel prices

Member for Roe Dr Graham Jacobs has called for the Gallop Government to take responsibility for heavy haulage transport costs in the State.

Dr Jacobs called for Treasurer Mr Eric Ripper to give up some unbudgeted windfall, particularly from GST on fuel, and give some relief to transport operators.

"The transport operators in my region are hit with a 'double whammy' as they are looking down the barrel of 167 per cent increase in truck registration fees on top of the escalating fuel prices," Dr Jacobs said.

"The government is refusing to do anything about the high fuel prices, but the situation with registration fees is deplorable.

"The thrust of the National Transport Commission's (NTC) third determination that states truck registration fees need to be high to drive bulk commodities off road onto rail is not practical in WA where we have a rail system that can't deliver.

"When called on to help transport operators in Parliament this week, the Treasurer's responses were as lame as the Premier's – both offered absolutely no help or hope for transport operators.

"Our Transport Minister should stand up for WA on this issue. No federal objection will be lodged if WA stands up for our road transport operators, as this NTC is not a federal organisation, but a conglomerate of transport ministers from other states."

Farmers and Business Do You Need Housing Finance?

The Country Housing Authority is a State Government Agency supporting rural and remote communities by providing access to housing finance.

We provide housing finance to farmers, retired farmers, rural employers, the self employed and local governments to provide flexible home loans that suit the needs of local communities.

You can use your Country Housing Authority loan to build, buy, add or modernise your home. Our loans have no application or loan management fees and competitive interest rates. Repayments can be made on a monthly, quarterly, or half-yearly basis or tailored to your cash flow. The loan terms are 20 years.

For further information phone 1800 158 200 (free call) visit our web site www.dhw.wa.gov.au, email us at cha@dhw.wa.gov.au or pick up a brochure from local Shire Office, Telecentre or Business Enterprise Centre

Infection Control

There are a number of nasty bugs about these days, so it is timely to remind everyone that

**the best way to prevent
cross-infection is to
wash your hands!**

If you have an infection, wash your hands to stop the bacteria/ virus/ fungi getting onto things you are touching.

If you are caring for someone with an infection, wash your hands after treating/ touching the patient, to prevent you catching their infection and from spreading it to others you then come into contact with.

* * * * *

In the hospital setting Infection Control is of paramount importance.

The same diligence should apply to everyone to help stop the spread of infections.

Help Required—Rubbish Tip Clean Up

If you have recently driven down Bidy Camm Road or taken a load of rubbish to the Lake Grace Landfill site you would have noticed the condition of the tip and surrounding area. With recent windy conditions and inappropriate dumping of rubbish a large amount of litter is spread in and around the site.

A community clean day has been planned to assist with cleaning up the rubbish that has collected along Bidy Camm Road outside of the fenced tip area. If you would like to join with Council Staff on **Saturday 15 October 2005 commencing at 9am** it will greatly assist with clean up of this area.

Gloves and rubbish bags will be provided but if you have your own gloves please bring them along. Registration as a volunteer will take place at 9am at the entry to the tip site on Bidy Camm Road. Following the clean up a sausage sizzle and refreshments will be provided at The Shed in Stubbs Street Lake Grace.

Your support is much appreciated. To register early please telephone the Shire office on 9865 1105. All enquires regarding the clean up should be directed to Chris Jackson. We look forward to your participation on the 15 October 2005.

Community Groups Insurance Facility

Public liability insurance cover for a limit of liability of \$10,000,000 with an excess of \$250 per claim. The premium for this cover is around \$500 per annum which is very competitive in the current insurance market.

Types of groups for which cover is available under this facility are:

- ♦ Festivals, Fairs, Events and Carols by Candlelight—Organisers
- ♦ Festivals, Fairs, Events and Carols by Candlelight—Participants (MC's, technicians, singers, musicians and the like)
- ♦ Community Market Organisers
- ♦ Stallholders
- ♦ Senior Citizens / Over 55's Clubs
- ♦ Hirers of Committee Controlled Facilities
- ♦ Community Centres
- ♦ Traders Associations
- ♦ Historical Societies
- ♦ Music Groups / Municipal Bands (excludes Rock Bands)
- ♦ Hall Committees
- ♦ Reserve Committees
- ♦ Progress / Development / Tourist Associations
- ♦ Community Groups (including sporting clubs)
- ♦ Social / Cultural Groups
- ♦ Kiosk / Café
- ♦ Artists (installation of public art)
- ♦ Church Groups
- ♦ Community Theatre Groups
- ♦ Band Practice
- ♦ Resident Street Parties

There is also available to community groups a business insurance package which will cover the group's property for fire and theft, business interruption, money, machinery breakdown, electronic equipment breakdown, glass breakage, goods in transit and general property.

Information on the Community Groups Facility, including proposal forms can be found on the Local Government Insurance Services website www.lgiswa.com.au

SCIENCE AND STUFF

MAMMOTH OZONE HOLE:

This year's seasonal hole in the ozone layer over Antarctica is the size of Europe, the largest breach since 2000 and the third-largest ever recorded. The 10-million-square kilometre hole was reported by the European Space Agency's Envisat satellite on 6th September.

HOW TO BREED SUPERBUGS:

Overuse of antibiotics really does drive the evolution of superbugs.. The Antibiotic Resistance, Prevention and Control project looked at 300 European hospitals and found that those using most antibiotics had the highest levels of methicillin-resistant *staphylococcus aureus*. Hospitals with tightest infection control, such as isolating patients with MRSA, had the lowest levels.

BLACK-AND-WHITE DINNER:

Ancient humans dined on giant pandas. Evidence from seven fossil sites suggests that pandas formed part of the human diet approximately 600,000 years ago. Today only about 1590 pandas live in the wild, most in mountainous areas in Sichuan, Shaanxi and Gansu provinces.

SIBERIAN BLAST LED TO MASS EXTINCTION:

The culprit in a global murder mystery may have finally been found. Huge volcanic eruptions that covered much of Siberia with lava were probably responsible for the worst mass extinction in the last half-billion years. Atmospheric carbon dioxide rose to 10 times today's levels, warming the surface of polar oceans and stalling global ocean circulation, which in turn starved marine life of oxygen. The mass extinctions 251 million years ago, at the end of the Permian period, wiped out 90 to 95 per cent of marine life and some 70 per cent of terrestrial life, but they have been hard to explain. One clue comes from marine rocks which show that at the time of the extinction, the ocean contained too little oxygen to support marine animals. With no evidence of a massive asteroid impact or other catastrophe, the prime suspect has been Siberian eruptions. Carbon dioxide concentrations at the end of the Permian era was 10 times that of modern times with land and sea temperatures about 8 degrees C warmer (Geology, vol 33, p 757).

SMELLY:

A new line in chewing gums and candy could leave you smelling of roses for 6 hours afterwards at least. Japanese firm Kanebo has developed confectionary containing rose or vanilla-scented chemicals that the body starts secreting 30 minutes after the treats are eaten. They found the most effective ingredients to be geraniol, extracted from roses, and vanillic aldehyde from vanilla.

PLAN TO SAVE THE DEAD SEA:

After three years of negotiation, the governments of Israel and Jordan, and the Palestinian Authority agreed

the first steps of a plan to refill the Dead Sea with the water from the Red Sea by carving out a 200-kilometre canal through the south of Jordan. The potential benefits of this highly ambitious plan is to use the 400-metre height difference between the two seas to generate hydropower, and build the World's largest desalination plant to supply communities around the Dead Sea with drinking water. The scheme would also help restore the area's biological diversity, which is being slowly choked as water levels drop. The Dead Sea, the lowest point on the Earth's surface, is surrounded by Israel, Jordan and the west bank. It has been receding by roughly 1 metre a year for the past three decades. Some estimate that it has half the quantity of water it did a century ago. It will cost at least \$4 billion to build. If the project fails to take off, and nothing is agreed to replace it, it will be an opportunity missed. If the Dead Sea is left as it is, a point may come when its name becomes obsolete. Some scientists reckon that as the waters continue to recede, the concentration of salts will become so high that evaporation will stop. If that happens, you won't have to be Jesus to walk across the Dead Sea.

TOXIC TRANSFER:

A report from the Netherlands says that before we are even born, our bodies may be riddled with pollution. More chemicals from everyday household products cross the placenta from mother to baby than we ever imagined. From 42 maternal blood samples and 27 samples of blood taken from the umbilical cord were analysed. For the first time, they found chemicals such as antibacterial agents, flame retardants and detergents in umbilical-cord blood. Traces of pesticides, artificial musk's and plasticisers also appeared. Concentrations of the antibacterial agent triclosan were higher in chord blood than in maternal blood, while maternal and chord blood had roughly equal concentrations of phthalates, which are used as plasticisers and are also found in ink, paint and cosmetics. All other chemicals were also present in lower concentrations in cord blood than in maternal blood found the study.

GOING APES:

After years of warnings that our closest cousins, the great apes, are on the brink of extinction, there is finally a collective will to halt their decline. For the first time, representatives from the governments of 23 countries in Africa and south-east Asia that the six species of the great ape call home, have met to discuss the creatures' fate. The call to action may have come too late, however. Last week, conservationists launched a major report in which they warn that great apes could disappear within a single generation.

For your information

Maurice Gilson.

SEPTEMBER ORDINARY COUNCIL MEETING

Items on the Agenda for discussion at last week's Council Meeting included:

- ♦ Formation of a Centenary Committee for Lake Grace's upcoming centenary celebrations.
- ♦ More community consultation regarding Newdegate's Industrial Subdivision.
- ♦ Appointment of a community representative for Council's newly established audit committee.
- ♦ Erection of a fence at 'The Shed' BBQ area in Lake Grace for the display of urban artworks produced by Lake Grace youth. The fence will be erected by Curtin University students and coordinated through the Lake Grace Lions Club.
- ♦ Junior Council will purchase 100 Constable Care water bottles for distribution amongst the three schools in the Shire.
- ♦ Adoption of Community Housing Policies.
- ♦ Purchase of 5 Bennett St Lake Grace for the development of self funded units or Joint Venture Housing Project to extend the Lakes Village.
- ♦ Approval of the Department of Environment's Emergency Farmland Water Response Plan which clearly outlines roles and responsibilities of all players in providing sufficient water during periods of low rainfall.
- ♦ Awarding of tender to construct a transportable residence in Blackbutt Way Lake Grace.

Council was also addressed by Julie Goodgame from the Department of Land Information (DOLI) on the rural property addressing project which DOLI is coordinating through local governments.

For more details on any of the above, the minutes are available at all Shire libraries or online at www.lakegrace.wa.gov.au or contact your local Councillor.

DISTINGUISHED SERVICE AWARDS CONGRATULATIONS

Congratulations to former councilor Ted Wright and Cr Wally Newman on their WA Local Government Distinguished Service Awards which were presented at Local Government Week during August.

As Ted was overseas at the time and unable to collect his award a special presentation was made at last week's Council Meeting.

Ted Wright

Having spent the majority of his life in Lake Grace and with his unwavering commitment to the community Ted was first elected to Council in June 1974 completing 16 years service over the next 23 years. Ted has been dedicated to the improvement of infrastructure and services to the Lake Grace community with some of his most notable achievements including securing automatic telephone services, the installation of an SEC power grid for the Shire and the extension of the water pipeline to South Lake Grace.

Since his retirement from Council in 1997, Ted has continued to be an excellent ambassador for the Shire, and his 16 years of loyal and exceptional service to our community is highly regarded.

Pictured above are Ted & Julie Wright with Shire President Darcy Roberts at last week's Council Meeting following the presentation.

Training for Visitor Centre Volunteers

Ian Menzies, Tourism Consultant will run a training session for Visitor Centre volunteers about dealing with tourists, promoting our region and other aspects of volunteering at the Visitor Centre. All volunteers are welcome to attend.

Ian will run the training at the Visitor Centre on October 10th and again on November 4th (i.e. the same session twice). Each session will start at 2pm and run for about two hours, with afternoon tea provided. If you wish to attend, please come in to the centre or contact Michelle Slarke (9865 1878) to register for either of the sessions.

We are aiming to open the Visitor Centre from 9am to 4pm daily. If you wish to volunteer, contact Mary Naisbitt (9864 9043) or Annie Slarke (9865 1170) or come in to the centre and put your name on the roster.

Local businesses, particularly those who deal with tourists are welcome to display their brochures at the Centre.

The official opening of the Visitor Centre will take place on Saturday October 22 at 2.30pm. Please inform any former residents and railways staff.

HUMOUR

The other day I went up to a local Christian bookstore and saw a 'honk if you love Jesus' bumper sticker.

I was feeling particularly sassy that day because I had just come from a thrilling choir performance, followed by a thunderous prayer meeting, so I bought the sticker and put it on my bumper.

I was stopped at a red light at a busy intersection, just lost in thought about the Lord and how good He is and I didn't notice that the light had changed.

It is a good thing someone else loves Jesus because if he hadn't honked, I'd never have noticed.

I found that LOTS of people love Jesus. Why, while I was sitting there, the guy behind started honking like crazy, and when he leaned out of his window and screamed, "for the love of God, GO! GO!" What an exuberant cheerleader he was for Jesus.

Everyone started honking! I just leaned out of my window and started waving and smiling at all these loving people.

I even honked my horn a few times to share in the love. There must have been a man from Florida back there because I heard him yelling something about a sunny beach....

I saw another guy waving in a funny way with only his middle finger stuck up in the air. When I asked my teenage grandson in the back seat what that meant, he said that it was probably a Hawaiian good luck sign or something.

Well, I've never met anyone from Hawaii, so I leaned out the window and gave him the good luck sign back.

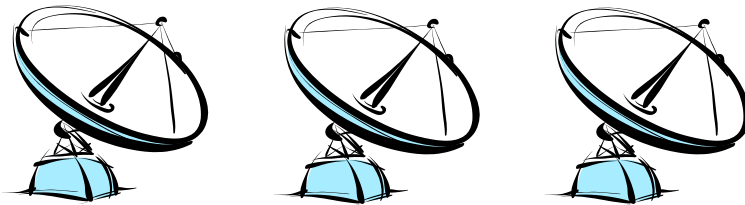

My grandson burst out laughing, why even he was enjoying this religious experience.

A couple of the people were so caught up in the joy of the moment that they got out of their cars and started walking towards me.

I bet they wanted to pray or ask what church I attended, but this is when I noticed the light had changed.

So, I waved to all my sisters and brothers grinning, and drove on through the intersection.

I noticed I was the only car that got through the intersection before the light changed again and I felt kind of sad that I had to leave them after all the love we had shared, so I slowed the car down, leaned out of the window and gave them all the Hawaiian good luck sign one last time as I drove away.

190 Rings Up Big Bills

190 premium numbers are becoming the new scourge of regional residents.

Any phone, fax or SMS service that has 190 as the first three numbers is a premium phone service and can involve high charges, often up to \$5.50 per minute. These services are not illegal, but must show their name and the cost per minute or other applicable charges on their material. However 190 operators bank on consumers not reading the fine print.

Fax-backs are one of the most common forms of 190 scams where consumers are enticed into responding by fax machine to competitions, diets and employment opportunities. The goods or services on offer often have little value for the huge bills they generate, and the information can be obtained free through the Internet or local paper.

Some fax-back services use slow operating fax machines when there is a charge per minute for the call. One consumer reported a \$100 call charge when they responded to a fax-back offer to obtain a 'special diet'.

Some 190 competitions auto dial consumers' phones at random with a recorded message telling them to call a 190 number to win a car or other prize. These competitions are big traps and use a number of tricks to keep the consumer on the line and the money counter

ticking over. They ask complex questions and consumers have spent more than \$30 trying to win a car.

Small businesses and community groups have unknowingly become victims of 190 scams when staff and members use their phones to respond to these offers. Small businesses might consider contacting their telephone company to get a 190 'block' put on the phone.

SMS ring tones and 'chat' services have become very popular recently, especially with younger people. Many are not reading the terms and conditions of these offers, which often 'subscribe' them to an ongoing arrangement when they think they are buying just one ring tone for between \$2 to \$4.

One teenager reported being billed with more than \$1000 worth of mobile phone ring tones in 10 days, receiving up to 20 SMS messages a day, after ordering what he thought were two ring tones from an internet site. Consumer Protection has received more than sixty calls in two months from country consumers complaining about 190 premium phone numbers.

More information on this and other consumer issues is freely available by calling Consumer Protection on 1300 30 40 54 or by emailing asmith@docep.wa.gov.au

NIGHT WATCH

Welcome to Night Watch for the fortnight from midnight Friday 7th October, to midnight Friday 21st October. Remember, astronomy is looking up, and never look at the Sun without proper equipment.

This fortnight its goodbye to the planet Jupiter in the evening sky. There is a partial Eclipse of the Moon at moonrise in the evening of Monday 17th (new moon).

Our local star, the Sun, resides in the Constellation of Virgo shining at magnitude -26.7 all fortnight.

On Saturday evening the Moon at 21%, will be 0.2° north of the red star Antares (rival of mars). The Moon, on Tuesday 11th, will be at 1st quarter phase 53%, shining at magnitude -6.0. On Friday 14th at 10pm the Moon will be at Perigee (closest), at 365,449 kms from Earth at 84%. The full Moon at 100% visibility, will be at 8:04pm on Monday 17th at magnitude -12.0. The Moon is in Scorpius on Saturday, Ophiuchus on 9th, Sagittarius on 10th and 11th, Capricornus on 12th and 13th, Aquarius on 14th and 15th, Pisces on 16th, 17th and 18th, Aries on 19th and 20th, Taurus on Friday 21st.

Mercury, at magnitude -0.6 in Virgo, sets at 7:20pm on Saturday. On Friday 14th Mercury will be at Aphelion (furthest from the sun), at 69.7 million kilometres. Mercury on Saturday 15th will have moved into Libra. On Friday 21st Mercury at magnitude -0.4 sets at 8:02pm.

Shining at magnitude -4.3 in Libra, Venus sets at 9:52pm on Saturday and two minutes later on Sunday in Scorpius. Venus on Sunday 16th will have moved into Ophiuchus and on the 17th will be 1.6° (thumb at arms length), of the red star Antares. Venus sets at 10:12pm on Friday 21st.

The red planet Mars, in Taurus, rises at 9:02pm on Saturday and 8:58pm in Aries on Sunday. At 9pm on Wednesday 19th, Mars will be 5° south of the Moon. On Friday 21st, Mars rises at 8pm and reflects the Suns rays at magnitude -1.8.

The giant gas planet Jupiter, in Virgo sets on Saturday at 7:02pm at magnitude -1.7 and sets four minutes earlier each evening, slowly disappearing into the

twilight sunset until next fortnight when it will rise in the morning twilight.

The ringed planet Saturn, in Cancer at magnitude +0.7, rises on Saturday at 2:30am and at 1:45am on Friday 21st.

The blue/green coloured planet Uranus, in Aquarius, sets at 4:05am on Saturday morning at magnitude +5.7. Uranus will be 3° north of the Moon on Friday 14th, and sets at 3:13am on Friday 21st.

The grey/green coloured planet Neptune, in Capricornus, sets at 2:52am on Saturday at magnitude +7.9. On Wednesday 12th Neptune will be 5° north of the Moon and sets at 2:04am on Friday 21st.

Pluto in the Constellation of Serpens Caput, at magnitude +13.9, sets at 11:08pm on Saturday and at 10:18pm on Friday 21st.

With the Moon in the night sky until Wednesday 19th when it rises just after Mars, it is a good time to check out the craters on the Moon and Venus.

Astronomers have found some Asteroids with a small moon, now they have found one with two moons.

Asteroid 87 Sylvia is one of the largest known from the asteroid belt, which is located between the orbits of Mars and Jupiter. Sylvia is shaped like a lumpy potato, and is about 280 kilometres in diameter.

The European Space Agency's Venus Express spacecraft is at the Baikonur launch site in Kazakhstan, preparing for a launch this or next month to our sister planet Venus. The mission will provide the most comprehensive study ever of the Venusian atmosphere. It will dig into mysteries such as the unexplained fast atmospheric rotation in four days around the planet and the polar balance. It will also study the global thermal balance and the role of the strongest 'greenhouse effect' found in the Solar System.

MELBOURNE CUP DAY GARDEN TOUR

Come and join us for our annual garden tour. This year it will take the form of a relaxed 'Melbourne Cup Day' visiting two gardens which will ensure a thorough viewing. Morning tea will be served at a garden 30km SW of Newdegate before our lunch stop at a garden 15km SW of Pingrup. Watch the race whilst sipping a glass of champagne, then meander around 2 acres of this magnificent garden.

WHEN: Tuesday 1st November

MEET: 8.45am at the **NEWDEGATE GAZEBO**
for a 9.00am start on the bus.

COST: \$20.00 (less if taking own vehicle)

BYO: Lunch, hat, waterbottle and named small folder chair if possible

FUNDRAISER: Newdegate P&C Assoc.

INCLUDED: Scrumptious morning tea, glass of champagne with your lunch and prizes galore!

RETURN: approx 2.45 — 3.00 pm to Newdegate Gazebo

For those travelling from south of Newdegate and wish to bring own vehicles, information regarding the location of the gardens will be divulged when you ring to make your booking.

For more details and bookings:

Jill Dykes Ph: 98 719024 (Fax: 98 712094)

Or Melinder Dunkeld Ph: 98 712059 (Fax: 98 712094)

So come along, have a flutter and place your bet on a winner. See you on the day!

FIREBREAK NOTICE

Bushfires Act 1954

Notice to all Owners and Occupiers of Land in the Shire of Lake Grace.

Pursuant to the powers contained in section 33 of the above Act, you are hereby required on or before the first day of November up to and including the 31st day of March the following year, to have a firebreak clear of all inflammable material in accordance with the following:

(i) RURAL LAND

1. a) Immediately inside all external boundaries of the property or as is practicable, firebreaks of not less than 3 metres wide and
b) Where buildings, haystacks, fuel ramps, fuel tanks and stored fuel drums are situated on land, firebreaks of not less than 2.5 metres wide within 33.5 metres of the perimeter of such buildings, haystacks, fuel ramps, fuel tanks and stored fuel drums in such manner as to completely encircle the buildings, haystacks, fuel ramps, fuel tanks and stored fuel drums and;
2. Where land is in crop and adjoins the railway line reserve a firebreak of not less than 3 metres wide encircling the crop and;
3. a) Immediately surrounding an aerial landing ground situated on the land a firebreak of not less than 6 metres wide and;
b) Any aerial landing ground used as the motor start up, refuelling and maintenance area to be completely cleared of all flammable materials for a radius of 18 metres and;
4. Maintain clear of all flammable materials all townsite blocks and;
5. Where bush or land has been bulldozed, chained or prepared in any similar manner for clearing by burning (whether intended to burn the bush or not), provide a fire break of NOT LESS THAN 13 METRES WIDE inside the external boundaries of the land so prepared. If you become owner or occupier of land after the first day of November, 2005, the requirements of this notice are varied so as to require you to comply with the terms of this notice within fourteen days of the date of your becoming owner or occupier of such land, instead of on or before the first day of November, 2005. The firebreaks required by this notice are to be maintained clear of flammable materials up to and including the 31st day of March, 2006.
6. A readily mobile operational fire fighting unit containing a minimum of 400 litres of water on standby and available for inspection is required during the period 1 November 2005 to 31 March 2006.

(ii) TOWN LAND

1. Where the area of the land is 0.202 hectares (half an acre) or less all inflammable material on the land shall be removed from the whole of the land; and
2. Where the land exceeds 0.202 hectares (half an acre) in area, firebreaks at least 2 metres wide shall be cleared of all inflammable material immediately inside all external boundaries of the land and also immediately surrounding all buildings situated on the land.

GENERAL

If it is considered to be impracticable for any reason to clear firebreaks or to remove inflammable material from land or any other provisions required by this notice you may apply to the Council or its' duly authorised officer not later than 30 October, for permission to provide firebreaks in alternative positions or to take alternative action to abate fire hazards on the land. If permission is granted by Council or its' duly authorised officer, you shall comply with the requirements of this notice.

"Inflammable Material" is defined for the purpose of this Order to include bush (as defined in the Bush Fires Act), timber, boxes, cartons, paper and like inflammable materials, rubbish and also any combustible matter, but does not include green standing trees or growing bushes and plants in gardens, or lawns.

The penalty for failing to comply with this notice is a fine of not more than \$1,000 or a penalty of \$100 may be incurred by issue of an infringement notice, and a person in default is also liable, whether prosecuted or not, to pay the cost of performing the work directed in this notice if it is not carried out by the owner or occupier before the date required by this notice.

If the requirements of this notice are carried out by burning, such burning must be in accordance with the relevant provision of the Bush Fires Act. A permit to burn is required during the restricted burning period from an authorised officer. Permits are not valid on Sundays or public holidays.

BY ORDER OF THE COUNCIL.

Chris Jackson
CHIEF EXECUTIVE OFFICER
 September 2005

HARVEST BANS AND MACHINERY MOVEMENT BANS

The following is a set of definitions and guidelines developed to permit the delivery and removal of farm produce when harvest and vehicle movement bans are imposed by the Shire of Lake Grace.

1. DEFINITIONS

The following definitions shall apply to the guidelines on the ban of vehicle and machinery movement and the operation of internal combustion engines under Regulation 38A and 38B of the Bush Fires Act.

Laneway/Roadway (non gazetted)

A laneway/roadway is defined as having a trafficable surface, free of all inflammable material, a minimum of four metres wide. Overhanging vegetation has to be pruned back so as to not come into contact with parts of a vehicle.

Registered On and Off Loading Area

A registered On and Off Loading area is defined as an area free of inflammable material, save live standing trees to a radius of 50 metres from the centre of the area - application forms are available from the Shire Office.

Mobile Fire Fighting Unit

A mobile fire fighting unit is defined as having a minimum water carrying capacity of four hundred (400) litres, fitted with a minimum of twenty (20) metres of nineteen (19) millimetre diameter fire fighting hose and pump capacity of delivering water through an adjustable nozzle in the spray and jet configurations.

Harvest Ban

A ban on the operation of all grain harvesting machines within the Shire or part of the Shire and during a time, as specified in a notice or broadcast (Reg 38A).

A Ban on the Movement of all Vehicles and Machinery and the Operation of Internal Combustion Engines.

A ban on the movement of all vehicles and machinery and the operation of internal combustion engines within the Shire or part of the Shire and during a time

as specified in a notice or broadcast (Reg 38A & 38B) with the exception of the movement of vehicles and machinery on constructed and gazetted roads and laneways.

2. PERMITTED ACTIVITIES

The following activities are permitted provided these comply with specified conditions.

1. Loading and off-loading of grain, fertilizer and feed is only permitted on sites which are approved and registered by Council on an annual basis and which are clear of all inflammable material save live standing trees to a radius of at least 50 metres. A mobile fire-fighting unit shall be in attendance at all times the site is in use during the ban period.
2. Water carting for stock and domestic purposes provided it is accompanied by a mobile fire-fighting unit or, alternatively, the water carting vehicle acts as the mobile fire-fighting unit and meets minimum specifications, (this also requires the retention of 400 litres of water at all times).
3. All necessary travel to and from and within piggeries, sheep or cattle feed lots, provided this is undertaken with a mobile fire-fighting unit in attendance.
4. All necessary carting of livestock, provided that such a vehicle is accompanied by a mobile fire-fighting unit.
5. Activities which received specific exemptions from Council or a Chief Bush Fire Control Officer.

3. CHRISTMAS DAY

A Harvest Ban and a ban on the movement of all vehicles and machines and the operation of internal and combustion engines is imposed on Christmas Day each year.

All other activities or operations may only be undertaken during Total Vehicle and Machinery Movement Bans and Bans on the Operation of Internal Combustion Engines after approval has been granted by Council. Approval has to be sought on an individual basis. Approval may be subject to specified conditions. It should be noted that approval may not be granted.

Fire Services of Western Australia Fire Awareness Seminar

**Friday 13th October at Lake Grace Town Hall
and
Friday 14th October at Lake King Sports Pavilion**

- **Bush Fire Awareness and Preparedness**
- **What to do during a bush fire**
- **Home fire safety**

This fire awareness seminar is suited for all those people who would like an understanding of fire prevention and preparedness around the home. The presentation will give you an insight of whether to stay at home or leave in the event of a major bush fire threatening your home.

Time: 9:30am to 3:00pm

Catering: Tea and coffee along with lunch will be provided at fire services expense.

Any queries please contact Mac Johnston, Fire Services on 98455006 or mjohnston@fesa.wa.gov.au or Shire of Lake Grace 98651105 or [Cass@Lake King Machinery.\[lakekingmach@bigpond.com\]](mailto:Cass@Lake King Machinery.[lakekingmach@bigpond.com])

8:30am to 5:00pm Friday 21st October 2005

Dress: Casual attire

Fees: Nil

Stationery: Will be supplied

Catering: Morning/afternoon teas along with lunch will be provided at Fire Services expense.

Any queries please contact Mac Johnston, Fire Services on 98455006 or mjohnston@fesa.wa.gov.au or Shire of Lake Grace 98651105

Good Reads for Teens

Welcome to *Good Reads for Teens* - a new section of the Lakes Link News which will feature good books that may interest you. Some of the books featured are new to our library or are old favourites that myself and others have read and enjoyed. So if you've been having trouble picking out a book, read below because this might just help you.

Rebecca Reeves

** All the books featured are available at the Lake Grace Library*

My Story

My Story's don't just have one author they have many. It doesn't matter what kind of book you like, whether it is horror, adventure, mystery or friendship. My Story's will always have everything you like. There are many of these books in the Library and coming from a person that has read many books they are very good. They're written in the form of a diary and they're also true stories. So if you want to try something different go down to the Lake Grace Library and pick up a My Story book because believe me, you'll love them.

Parvana by Deborah Ellis

Were you into books like Deltora Quest? If you were then Parvana is definitely a book you should read. As you might have guessed there is a girl in the book and her name is Parvana. She is on a journey, a journey to find family, a journey to find a home. This book may sound like it's just a girls book, but I assure you that boys have read it too.

Series of Unfortunate Events by Lemony Snicket

If you said to me that you had never read the series of unfortunate events I would probably be stunned. They're books that can be enjoyed by all ages, from age 7 to age 99. It's about three children whose parents have just died in a house fire. They have to go live with a horrible man who always tries to steal their fortune. No matter how hard the kids try, they can never get away from him.

Are You Interested in The Management of the Avon River Waterways?

The Avon Waterways Committee (AWC) invites expressions of interest from people living in the Avon River Basin to apply for appointment to this community-based organisation that provides advice and guidance on waterways management.

With the Department of Environment, AWC carries out research and investigations into the waterway environment, plans for the best use of the waterways and their associated land, and carries out waterways protection works. AWC also supports a community awareness program.

The Committee is looking for a person who resides within the catchment, and has an understanding of natural resource

management issues and social/environmental interactions, particularly as they relate to waterways management and protection.

Good communication and interpersonal skills, linkage with community groups, and the ability to represent broad community interests will all be highly regarded.

AWC has vacancies for three community members for two or three year terms.

Nominations will be accepted by Department of Environment, PO Box 497, Northam until Friday October 14. More information is available by telephoning Bernard Kelly on 9622 7055.

Australia Post Does Not Support Chain Letters

Australia Post does not support chain letters, does not provide free or reduced postage for chain letters and strongly urges recipients to throw the letters in the bin rather than continuing the chain.

There are a number of chain letters which incorrectly state that Australia Post monitors the chain letter, provides free postage or has said that the recipient should use 50-cent stamps to post C5 envelopes which should have \$1 postage.

Two of the most common letters are the "Rhodes" letter which promises financial rewards and a Guinness Book of Records letter which states that it is attempting nasty "South American" version

which threatens anyone breaking the chain with particularly bad luck or a violent death.

The Department of Consumer Affairs is particularly concerned about the "Rhodes" letter and has a warning bulletin on its website.

If people recognize the names of people on the list of recent recipients of a chain letter, then they should inform those people that if they were responsible for forwarding the letter then they should desist from forwarding any similar letters to the recipient.

- Always bring a sweat towel and water bottle to classes; suitable footwear must be worn at all times.
- Classes are designed to cater for all levels of fitness unless otherwise informed.
- Please inform your instructor of any health concerns you may have at the beginning of the class.
- Teenagers are welcome to all classes.
- The fit ball can also be known as an anti burst ball, fitness ball etc.

Lake GRACE TENNIS NOTES

After some horrific weather during the week it turned out to be quite a pleasant day for some tennis on Sunday.

With the bush races on and people away for school holidays there was never going to be a big turnout although we had two courts going for a while. Welcome to Gary and Lorraine Seward and Graham Lloyd who came along for a hit.

This Saturday, at 9.00am, there will be a working bee to clean up the clubhouse, surrounds and also to carry on work to the divider fence. Any queries to Ross Bowron on 98651164.

On Sunday, starting at 11am, is our AGM at the clubhouse. This will be followed by a BBQ lunch

and social tennis. Anyone unable to attend due to taking kids back to school etc. should put their apologies to the above number.

Fixtures have been printed and distributed to last years pennant and social players, also the juniors. Anyone else wishing to get a fixture can get one off the Plaza notice board or see Ross at Neu-Tech.

Everyone is welcome to social tennis, it only costs \$3 in ball fees and is great fun. Get into shape for summer!

Ross Bowron.

Lake GRACE GOLF NOTES

Sunday 25th September saw the end of the 2005 golf season. A three person ambrose, with many reports of team stacking, provided a fun end to a great season.

Scores were tight with only 8½ shots separating the highest from the lowest. Winners on the day were Peter Taylor, Lyn Taylor and Gary Frost with a formidable 66-8½-57½. Runners-up were the Hunt family; Andrew, Alistair and Marcus with 80 -13 1/3 - 57 2/3.

Other good scores were Chad Stanton, Scott Strevett and Peter Stoffburg with 71-13 1/6-57 5/6; the Reeves family with 72-12 5/6- 59 1/6; and Murray Stanton, Les Ball and Clem Bennett with 73-13½-59½.

Taking home the NAGA was Justin Wright, Debbie Stuart and Helen Bennett with 85-19-66.

Nearest the pins were John McGlinn (no.4), Lyn Taylor (no.6), Mark Burbridge (no.15) and Kingsley Strevett (no.18).

Ladies longest drive on number 14 went to Rebecca Reeves, while men's longest drive on number 3 went to Chad Stanton. Best third shot on number 5 went to Alex Reeves while best third shot on number 13 went to Marcus Hunt. Best second shot on number 10 was John McGlinn, while longest putt on number 9 went to A Hunt.

A good time was had by all at the golf club dinner

and presentation night on Saturday 1st October.

After being welcomed by club President Steve Hunt and sitting down to a fine meal proceedings got underway with the presentation of the awards.

A Grade Men's Winner	Craig Reeves
A Grade Men's Runnerup	Graham Milton
A Grade Ladies Winner	Helen Hunt
A Grade Men's Runnerup	Michelle Lay
B Grade Men's Winner	Mark Seaman
C Grade Men's Winner	Marcus Owen
C Grade Men's Runnerup	Justin Wright

Men's Eclectic	Steve Eaglestone
Ladies Eclectic	Michelle Lay

Steve Hunt presented a Club Persons's award to a very enthusiastic Kevin Eggers for all the hard work he has put in throughout the year with his work on the course.

After the formalities were out of the way the fun started with many contributions being made to the cancer tin as the fines were handed out. Special mention was made of the Stanton/Ball/Bennett team who set many records on closing day, none of them being for golf.

Don't forget the AGM which is being held on Thursday 27th October at the Sportsman's Club, 7:30pm start.

Craig Reeves
