LGDHS Interschool Swimming Carnival

Whitney King

On Friday 17th March, a selected team of Lake Grace DHS students travelled to Kojonup to attend the Interschool Swimming Carnival. Lake Grace students were accompanied by Mr Dines and Miss MacTaggart along with a group of supportive parents. The bus departed from school at 7.30am and was full of nervous chatters as it travelled to the Kojonup Swimming Pool. On arrival, the students piled out and rushed into the bay, as they were the last school to arrive and didn't have a lot of time before the carnival began.

Everyone was feeling nervous, but did well to keep up a positive attitude throughout the day. The feeling of standing behind the diving block is always a nerve-racking experience, and makes the heart beat speed up to a fast pace. Once the signal to step up onto the block has sounded, the swimmer braces themselves for the signal to go and they dive into the water, forgetting the nerves and swim as fast as they can to represent Lake Grace school. Everyone who competed last Friday would have experienced these competitive emotions and, despite them, showed great sportsmanship. All students who participated swam brilliantly and put in their best efforts. It was also great to watch everyone cheer on their team and encourage each other. The relays were very competitive, and were a highlight of the day. Most of the Lake Grace teams came first or second in these races.

Top right: Holly Stanton and Hannah Clunie holding the Handicap shield.

Below right: Ruby Stanton, Summer Earnshaw and Reagan Marshall.

Editorial

- ☺ Thank you to the Lake Grace St John Ambulance who have made their new headquarters available to us for the **Drug and Alcohol information session** that is being held on Thursday 6th April. It is really important that we get an idea of numbers so if you're coming we need to know by Tuesday 4th April. Even though we have the venue sorted we still need RSVP's as we are catering a supper.
- ☺ We still have a box of **waterwise showerheads** available for anyone wanting to swap their old one over for a new one. Make the most of the opportunity before it's too late!! The programme ends in May.
- ☺ If the police pull you over during the next couple of months and you don't think you've done anything wrong please greet them with light hearted friendliness as you may have been driving so brilliantly that they want to acknowledge that fact. Lake Grace Roadwise will be giving away some **\$25 fuel vouchers** for motorists who are driving safely and our local police are going to have the task of passing them out.
- ☺ Are you into gardening? Or perhaps you want to use less water and save a few \$'s. The **Beyond Gardens** crew is coming back to Lake Grace this Saturday (1st April). A great opportunity to get all of your gardening questions answered, please RSVP if you're coming!
- ☺ Our registration for the **Food Sensations programme** has been approved. It will be happening in May (4th—25th), running over four Thursdays (around 2-3 hours for each session; it is important that you attend each week. The programme talks about healthy diet, reading labels, fat/salt intake and how to create healthy meals from scratch. Participants engage in an information session via videoconference before preparing a meal that they enjoy together. There is no cost and places are limited.
- ☺ The CRC is coming to the end of their **Governance Support** activities. A huge thankyou to those clubs who took part, I know you will have all got something out of it. If anyone has any concerns

regarding their club or organisations constitution please get in touch within the next couple of weeks. From these funds we have been creating a toolbox of policies, job description forms etc that would be of use to any club or organisation. We will load these onto our website upon completion.

- ☺ We have been successful in obtaining funding for a Volunteer breakfast. This will be held on Tuesday 9th May; places are limited to 60 and we're hoping every club and organisation in Lake Grace will send a representative along. Volunteers are the backbone of many organisations and it is important to recognise and reflect on this.

Suzanne Reeves

Workshop/ Information Session Calendar...

Drug & Alcohol - Thursday 6th April.
6:30pm—8:30pm. Information is directed at adults. Recognising, reacting and dealing with people under the influence. Facilitated by Holyoake. FREE.

Food Sensations - Thursday May 4th, 11th, 18th and 25th. Only ten places available. FREE.

Excel for Beginners - We will be holding this workshop on Wednesday 19th April. It will run from 9:30am to midday (see left). Cost is \$30 per person, only four places available.

Downloading Photos from your Phone or Tablet - How to transfer photos onto your computer or onto a thumbdrive. Wednesday 26th April. 11am to midday. Cost is \$10 per person.

Facebook - Needing a little help with your page? Want to load photos or documents? An informal session on Wednesday 3rd May. 11am to midday. Cost is \$10 per person.

Expression of Interest - We are looking for expressions of interest for Facebook for Business; Facebook for Club/Organisation. If it would suit you to have these workshops in the evening please let us know.

If you are interested in any of the above please phone the Lake Grace Community Resource Centre on 9865 1470.

Beginner Excel

Start from scratch in Microsoft Excel and find your way around the ribbon and dialogue boxes. Areas covered are:

- Finding your way around the Workbook
- All about cells
- Resizing and merging cells
- Fitting text to cells
- Autofill
- Inserting rows & columns
- Worksheets
- Borders
- Freezing panes
- Sorting
- Filtering
- Formulas
- Comments
- Page Setup
- Printing

What's Happening?

- Congratulations to Cameron Lloyd and Rondah Reale on the arrival of Amalia Patricia born on 23rd March 2017 weighing 7 pound 10 oz.

A Man of Vision

Suzanne Reeves

Does everyone see the name C Y O'Connor and understand the debt that Western Australia owes to this brilliant engineer. His surname denotes our Federal electorate, his name has branded the TAFE for our region, the lake held back by Mundaring Weir also bears his name as does the beach where he ended his life. Those who drive along the Great Eastern Highway have a constant reminder of the man as they motor parallel to the pipeline.

Charles Yelverton O'Connor was born 11th January 1843 in Gravelmount, Castletown, County Meath, Ireland. Following an apprenticeship as a railway engineer, he emigrated to New Zealand to take up the position of assistant engineer for Canterbury Province.

In 1873 he married Scottish-born Susan Laetitia Ness and they had eight children, four girls and four boys. Through advancements in his career he was appointed Marine Engineer for the colony (New Zealand).

By 1891 O'Connor had much experience in harbour and dock construction when he resigned his position in April that year to become Engineer-in-Chief of Western Australia. His wife and children relocated with him to

Australia. There he was responsible for the construction of Fremantle Harbour and the Goldfields Water Supply Scheme project, which supplied water to the Eastern Goldfields. He was the inaugural Engineer in Chief of the Public Works Department.

The construction of Fremantle Harbour^[1] was probably O'Connor's greatest personal triumph, as his proposal to build the harbour within the entrance to the Swan River was contrary to previous expert advice that this was impracticable and that the construction would require constant dredging. Work commenced in 1892 in removing a limestone bar and sand shoals at the mouth of the Swan River and was successfully completed in 1903. On 4 May 1897 the first ocean-going steamer, the *Sultan*, berthed at South Quay (renamed Victoria Quay on 26 July 1901 in honour of the late Queen Victoria). At age 54, O'Connor travelled to London to be inducted a Companion of the Order of St Michael and St George.

More than 100 years of continued use of Fremantle Harbour by heavy shipping has erased all doubt concerning O'Connor's technical judgement.

Gardening Tips

Media Release - Scotts Australia

Although it is Autumn, there's still time to plant out Winter and early Spring flowering annuals and vegetables while the soil remains warm.

There's an old saying that bulbs should be planted on St Patrick's Day - March 17 - but if you're a bit late, it won't matter! Try to have planting finished (except tulips) by mid April or a couple of weeks earlier in cold regions. Suggestions include:

The flower garden

Flowering bulbs from mid March to the end of April - daffodil, jonquil, freesia, ranunculus, anemone, crocus, hyacinth, muscari (grape hyacinth) and tulip*.

Pansy, viola, polyanthus, primula, primrose and cineraria.

Australian natives like native heath (correa), bottlebrush (callistemon), banksia, lillypilly, gum tree (eucalypt) and grevillea.

South African protea, leucadendron, leucospermum and serruria.

Evergreen trees and shrubs - camellia, azalea, rhododendron, magnolia, michelia, pieris.

* Tulip bulbs need 4-5 weeks in the vegetable crisper section of the refrigerator before they are planted out in early May.

The vegetable patch

Winter lettuce, onion, spinach, radish, broad bean, cabbage, cauliflower, broccoli, broccolini, pak choy.

Settle all new plants (except bulbs) in with **Pure Organic Premium Seaweed Plant Food**.

Fighting for Hearts and Minds

Media Release - Heart Foundation, Stroke Foundation

The Stroke Foundation and Heart Foundation today brought together Members of Parliament from both sides to urge national action on one of Australia's biggest killers – cardiovascular disease.

Hearts and Minds – Effective measures to tackle heart disease and stroke were launched at a Parliamentary Friends of Heart and Stroke event in Parliament House.

Stroke Foundation Chief Executive Officer Sharon McGowan said Hearts and Minds was developed by the Stroke Foundation and National Heart Foundation in response to the Government's acknowledgement of ever increasing burden of chronic disease.

"With an aging population and more prevalent risk factors, chronic disease is Australia's biggest health challenge – internationally chronic disease is being described as a pandemic," Ms McGowan said.

"Within Australia around one-third of the population or seven million people have a chronic condition, and that number is set to grow, placing ever-increasing demands on our health system and burden on our communities.

"To successfully meet the chronic disease challenge, Australia must do more to tackle one of our most costly diseases; heart, stroke and blood vessel disease."

Heart Foundation Chief Executive Officer Adj Professor John Kelly AM said cardiovascular disease was largely preventable and treatable.

"Around 4.2 million Australians are living with cardiovascular disease, it is the underlying cause of 29 percent of deaths, yet is largely preventable," Adj Professor Kelly said.

NEU-TECH AUTO ELECTRICS

Stubbs Street, PO Box 178, Lake Grace 6353
Phone: 9865 1164 Fax: 9865 1543

Pre seeding 2017

Seeding is only just around the corner, especially after all the Summer rains, so its timely to review our electrical pre season check list.

Two-ways - check all your two ways (UHF + VHF) are in good working order, UHF should be able to transmit up to 20 kilometres with a good aerial, VHF further. If the sets are faulty, bring them into store so we can have them repaired before the rush. We also have GME electraphone, UNIDEN and ICOM two ways in stock. We can arrange VHF sets in most common brands.

Machinery upgrades - upgrading your tractor, car or air seeder and need to transfer monitors from old to new? Give us a call and book us in to carry out the transfer for you. We can fit isolation switches, to stop current drains discharging batteries, at the same time as the monitor swap.

General electrics - have your batteries got enough grunt to start your tractor or truck? Is the alternator keeping up with all the electrical load? How about the starter, is it sticking or making angry sounds every now and then. What about the connector plugs for monitors etc, their condition will determine the reliability and accuracy of signals coming back from the machine.

TV installs - we supply and fit cabled and cordless TV monitoring systems that can be used in air seeders, boomsprays or truck bins for monitoring crucial areas. Screens are colour, available up to 4 sections (quad) on one screen and have infra red cameras for total dark vision. Screens also available in 7 or 9 inch version.

Lights - led lighting has virtually taken over standard and HID lighting on machinery, the floor lights available on the market offer exceptional value for performance come and see us for the most suitable lights for your particular needs. Have you seen the blue led lights for showing up spray patterns? Ask for a demo.

Speaking of lighting, here is a one off special on top shelf version x lights (made in USA) that are going out on special. Our suppliers wanted to reduce some stock, so I have 10 to sell at only \$320 + GST they normally retail over \$550!

10 only, while stocks last.

Give Credit Where Credit Is Due – What are Your Expectations?

Media Release - Warrior Wellbeing

Last week my 8 year old son participated in his first school swimming carnival, and ended up winning his first ever medal for “champion boy” in his age. Unfortunately I was away on a work trip, and of course when I spoke to the family that evening my son was the first on the end of the phone to tell me proudly of his achievement (he doubted himself and never expected to win). This recognition for effort has been amazing for his confidence and I have even noticed a positive change in his motivation towards other extra-curricular activities that had previously challenged his confidence.

A field known as “positive psychology” (focusing on one’s strengths) has come up with findings that this aids in increasing wisdom, satisfaction and a sense of purpose. It’s common sense really, how good do we feel when someone tells us we have done a good job?

There are three main areas where we can have a direct influence and use some “positive psychology” that is; in our family lives, in and around our working lives, in our community groups (sport clubs, rotary/men’s shed, church groups).

To do this effectively we have to always maintain our own good mental health and wellbeing and a definition which encapsulates this is summarised by the World Health Organisation (2007) - *“a state of wellbeing in which an individual realises his or her own abilities, can cope with the normal stresses of life, can work productively and is able to make a contribution to his or her community”*.

The interesting thing is that it’s almost a social and personal expectation to continually commit ourselves to our family, working, and community lives, and rightly so. These are all important areas and putting time and effort in gives us satisfaction.

Getting the balance right however between these three commitments, is tough, especially when “expectations” are not understood. In the work we do we come across a lot of misunderstanding and distress caused by individuals not communicating what their expectations are. For example a husband and wife discussing personal vs relationship expectations, a parent and teenager discussing boundaries, a boss and staff member discussing working conditions/priorities, and/or a footy coach discussing positions/roles within his team.

High expectations can be positive, it can help us grow as individuals and/or as a collective, reach achievements and hit our goals. However, many of us can also take this too far. We can easily become cynical of ourselves and others, especially when it comes to making mistakes. Shaming and blaming doesn’t help! Look for the strengths in others and yourself and don’t forget to give credit where credit is due.

Wheatbelt Railway Retention Alliance

Media Release

WRRRA congratulates the WA Labor Party on its success in the 2017 State Election.

Chairman Greg Richards said he is encouraged by the Labor Party's pre-election Growing Agriculture and Aquaculture policy which states that:

WA Labor believes that the preferred method of transporting grain is on rail. WA Labor will work with Brookfield Rail and industry and identify the opportunities to put more grain on rail to reduce the pressure on dangerous country roads.

WA Labor will take into account social, environmental as well as economic impacts of the best way to move our grain to Port and important export markets.

WRRRA was formed in 2010 with a focus of bringing together grain growers, local Government (city and rural) along with all interested community groups and members to fight the closure of Tier 3 Rail.

As predicted closure of Tier 3 Rail resulted in increased cost of freight for growers in the Tier 3 area (approximately \$6m/year extra from growers pockets); road conditions continue to deteriorate with costly road repairs and maintenance required; road safety is impacted upon.

The closure of Tier 3 Rail and the management of the WA Rail Freight Lease agreement have been the subject of several Inquiries, the findings and recommendations of which were not addressed by the Liberal National Party Government.

The Wheatbelt Railway Retention Alliance looks forward to working with the new State Government Ministers to assist in any way, to bring about a satisfactory outcome to ensure a safe and economic path to port for the Grains Industry - an important export industry for the WA economy.

Let's Get Quizzical

Suzanne Reeves

Let's face it, quiz nights are fun. It's an opportunity to enjoy finding out how little you know and why some people seem to have a veritable library of 'useless' information stored away in their head.

The recent quiz night held at the Sportsman's Club was a great success with nine tables booked on the evening; with room for only ten tables it was close to being a full house.

With ten rounds of questions covering local knowledge, Australia and current affairs plus much more it was a serious workout for the brain. Only two teams scored over 60%; these were the winning team 'Green Machine' and the second placed 'Butchers Hook'. Only two teams had a perfect 10 in any of the rounds; both of these were earned in the fourth round 'Entertainment'; lucky that Keeping Up With the Kardashians question made it into the round.

Well done to the School table that scored the best dressed on the night; plenty of effort was put into their headwear. Mistress of Ceremonies, Rosey Chircop kept the evening flowing with the barrage of questions; while Quizmaster Craig and Suzanne Reeves kept up with the marking while also keeping a running total of team scores.

General knowledge of flags was excellent, couldn't believe that anyone would recognise the flag for the Hutt River Province; the recently abdicated King Leonard would be thrilled even though the majority thought it should be attributed to the Justice League. Well done to the Green Machine for getting a perfect result. The table who's name revolved around Rosie proved they were no slouches in the beer department, scoring a nine out of ten.

As the evening progressed fatigue (and perhaps beer) had a detrimental effect while the night owls seemed to kick into gear following a sluggish start. There were plenty of prizes on the night; the winning table received IGA vouchers while boxes of chocolates and gift bags were given out during the night.

Save the Date

Fighting for Hearts and Minds (Cont.)

"The Federal Government must act now to encourage GPs to detect and manage risk before a life-threatening emergency – like a heart attack or stroke strikes. This action will help address cardiovascular disease and other chronic conditions.

"When a heart attack or stroke does strike, we need to improve treatment and care to help people maximise their recovery.

"We also need to provide advice and support to empower survivors to manage their risk of a further event."

The launch of Hearts and Minds was hosted by Co-conveners of the Parliamentary Friends of the Heart and Stroke Foundations Michelle Landy MP and Maria Vamvakinou.

Solutions outlined in the strategy were:

- Develop Australia's first heart and stroke strategy
- Detect and manage those at risk of heart disease and stroke
- Ensure every Australian household has someone who knows the signs of stroke and to call 000
- Embed best practice clinical support and education program for health professionals
- Deliver post discharge follow-up for stroke

survivors nationally

- Develop a comprehensive set of measures to achieve a national physical activity action plan
- Close the gap on rheumatic heart disease
- Fund a national cardiac rehabilitation audit.

Getting Together at Neighbour Day

Cheryl Chappell

Neighbour Day is about getting in touch with neighbours and others in your community, which is exactly what happened on Sunday 26 March all over our state.

Neighbour Day was about the Shire's four communities having an opportunity to mix together socially, and holding it at Newdegate made equal distances to travel.

The day was a little windy, however that did not dampen the fun and enthusiasm of the children and parents who attended Neighbour Day.

The monster Bubbles were a big hit with everyone learning how to hold bubbles, divide bubbles, blow bubbles in bubbles, make bubble donuts, and all sorts of other creative bubble designs.

The sausage sizzle with onions, mustard or sauce was cooked to perfection by Cr Ross Chappell. Complimentary bottled water from the Shire was delivered by Anne Bishop from the Newdegate Field Day Committee.

Parents and children enjoyed the face painting by Kath Athan and the bouncy castle.

Thank you to Newdegate CRC Rachael and Stevie-Joeline, Newdegate IGA Ken Boyes for cutting all the onions and delivering the ice. A big thank you to Newdegate Primary School Anne Webster for allowing the event to be at the school, it was a great venture. Thank you to the bubble man Andrew from Bubbly Life.

Above: Ready set go, ready with another cluster of bubbles from bubble man Andrew.

Above left: Jet Chappell, Rhys Richardson, Flynn Turner, Andrew, Katara Chappell and Hayley Richardson learning to make bubble creatures.

Above: Hayley Richardson and Summer Wynne

Above: Katara Chappell amazed at the size of her bubble

Above: Spidermen having fun together

PO Box 50, Lake Grace WA 6353 Ph: (08) 9890 2500 Fax: (08) 9890 2599

Email: shire@lakegrace.wa.gov.au

CEO's Corner

Flooding Event – February 2017

WML engineering consultants have now completed the secondary assessment of our road network, and projects have been costed for repair. This assessment has been delivered to Main Roads WA (MRWA) and the Shire is now waiting for confirmation from MRWA of funding for repair works.

Once the Shire has received confirmation of funding, a tender will be advertised for construction and repair works. Consideration will be given to the timeliness of works as well as quality of construction.

The Shire has engaged a number of grading contractors to undertake 'smoothing' works on our roads. This work does not involve any material importation, but is simply grading out ruts or damage in the road to remove washouts. We will start opening roads again as soon as possible, in light of vehicle capacity and water across roads. If a road is graded but still missing road base, it may not be possible to access these routes with restricted access vehicles.

For road closures please refer to the Shire's website www.lakegrace.wa.go.au or Facebook page for a list of current roads that are closed within the Shire.

BlazeAid have set up a base camp in Lake King to help those affected by the floods. If you require assistance from BlazeAid please contact the Shire on 9890 2500 and your details will be forwarded to BlazeAid. Alternatively you can contact BlazeAid on 0427 614 540. Further information is available on the website www.blazeaid.com.

The Department of Child Protection and Family Support has set up a Disaster Response Hotline for families and individuals who may feel that they need some professional psychological support. The 1800 Disaster Response Hotline number is 1800 032 965.

If you are aware of families or individuals within our Community who have been affected by the flood events and may need some support, please encourage them to contact the Disaster Response Hotline.

Local Recovery Coordinating Committee Meeting

The Shire and other government agencies held a meeting on Friday 17 March 2017 and provided an update in relation to the recent flooding. A resolution was made for two sub-committees to be established of local farmers, community representatives etc. to assist in the progress for the recovery of the flooding. Firstly an Infrastructure committee, to assist assessing the

restoration of infrastructure and recommending priority road projects in the short, medium and long term and a community committee to provide advice and guidance to assist in the restoration and strengthening of the community's well-being.

If you are interested in being on the sub-committee please contact the Shire on 9890 2500.

Strategic Community Plan Review

Community forums were held on Monday in Varley and Newdegate and on Tuesday in Lake King and Lake Grace. Thanks to those who attended and contributed to the survey.

The elected members and I have the opportunity to attend the Integrated Strategic Planning training in Katanning on Thursday 30 March. This is a timely training session that uses existing legislation as its basis to explore the way in which Local Governments are required to plan for the future. On the 6 April Councillors and management will be workshopping the results of the community forums to develop the new Strategic Community Plan.

Development Applications (Planning/Building Approvals)

A friendly reminder, if you are undertaking any development on your property (i.e. building something new or using your land for another purpose) please contact the Shire on 9890 2500 to ensure all the relevant approvals and permits are in place.

Insurance Responsibility

Any Community Groups, Organisations, Associations, Social Clubs, Sporting Groups, Senior Groups etc. that undertake any activity (e.g. fund raising, holding an event etc.) should have their own insurance coverage. The insurances to consider are Public Liability, Association & Officers Liability, Volunteer Workers and Community & Family Events. The type of coverage needed depends on the activities your group undertakes.

The Shire's insurance covers any property and contents owned by the Shire and liability to the public for areas within the Shire's responsibility. If you are a group that uses Shire owned facilities or grounds to store your equipment or goods, it is important that you have your own contents insurance to cover any loss that may occur.

Continued over ..

Shire of Lake Grace Community News *Cont.*

The Shire policy will not cover the loss of property not owned by the Shire. I am happy to catch up with any group that is concerned about the need for insurance and the limitations of our policies.

In the year 2000, Australia's insurance industry faced a public liability crisis because of the prohibitive costs for community groups. From here the Local Community Insurance Services was established to manage the special needs of clubs, community groups and not-for-profit associations. You can check out this risk management service at the following link <https://www.localcommunityinsurance.com.au>

Building & Maintenance Team

The Building Maintenance Team have been carrying out building/maintenance inspections on all Shire buildings collecting data towards the 10 year maintenance plan and carrying out work requests.

Progress on the Lake Grace Independent Living Units (ILU's) can be seen with the compliance works completed for Unit 1, roof lining and gable cladding works on Units 2 and 3, and the electrical pre-wire complete on Unit 2. Other works carried out on Unit 3 were the building wrap, installation of windows, footings for the carport and alfresco areas and ceiling battens.

The coming weeks will see completion of external cladding on Units 1 and 2 and installation of compliance ply bracing on Units 2 and 3. The units will then be to lockup stage which will enable internal fitout.

Road Works

Our Construction Team are working on Hatters Hill Road. They have completed 2 kilometres of formation and gravel sheeting. This project is being undertaken utilising Commodities Route funding.

The Newdegate grading contractor has been grading along Biddy Camm Road, Mission Road, Newman Road, Orr Road, Mt Sheridan Road and some of Old Ravensthorpe Road.

The Lake King grading contractor has been grading along Milstead Road, Long Creek Road, Mallee Road, Magdhaba Track and Old Newdegate Road.

The Lake Grace Maintenance Grader is currently grading the roads in the south east area after the flood damage (Brookfield, Thornton, Bairstow and Fourteen Mile Road).

Simon Trevenen (Contractor) has been grading along Magenta Road and Ardler Road.

Road Maintenance Team

The Road Maintenance Team have been erecting white posts along Morton and Holt Rock South Road, and patching the road damage on Magenta Road. The team have assisted the mowing of the ovals in Lake Grace when required.

Gardeners

Our Town Maintenance crew have been out to Lake King mowing the park area behind the tavern and

spraying the cemetery and playground near the Lake King Hall.

The team have been out to the sale yards in Lake Grace for spraying and slashing of the yards, spraying and weeding of the Lake Grace cemetery and trimming the hedges in the main street islands, and the Lake Grace Administration Building.

The team will be commencing the trimming of the street trees in Lake Grace.

Ordinary Council Meeting – Wednesday 22 March 2017

Items of business considered at the meeting included:

- Council endorsed the specifications of plant purchases to be purchased within budgetary constraints set in the 2016/17 budget.
- Council endorsed the selection criteria for the Newdegate Parks and Gardens Contract.
- Council approved the development approval subject to conditions and advice notes for a proposed transportable addition to existing house on Lot 3024 (No 6223) Mallee Road, Dunn Rock.
- Council endorsed the waiver of fees associated with the hire of the Lake King Community Hall by the Lake King Primary School with conditions.
- Council agreed to consider the appointment of a heritage architect to inspect suspected structural defects at the AIM Hospital Museum during 2017/18 budget deliberations.
- Ward Review - Council are to recommend to the Local Government Advisory Board to maintain the number of offices of councillor on the Council at nine (9) and an order be made to remove all wards.
- Council endorsed the Shire of Lake Grace Strategic Resource Plan 2016 – 2031.
- Council adopted the Statutory Compliance Return 1 January 2016 to 31 December 2016 for the Shire of Lake Grace.

The minutes of the March 2017 Ordinary Council Meeting are available on the Shire's website at www.lakegrace.wa.gov.au

Lake Grace Swimming Pool

What a pool season it has been!! Though the weather didn't always play nice, it has been so good to see so many familiar faces and returning swimmers as well as the big group of new faces into our pool.

We have seen babies from last season now toddling in the water and the progression of the little ones from the small pools to the big 50 metre pool, this is one of the many good moments we get to witness as pool managers.

Again this year we focused on the WAW supervision policy at our pool (and most other pools around the state), and it has been fantastic to see the vigilance parents and guardians have shown with supervision of their child or children, again another very pleasing sight for pool managers.

We have been very fortunate to have had an injury/emergency free season and this is always a nice feeling to get to this point and appreciate all the team work between the swimmers, parents, guardians and pool managers to prevent any major or minor emergencies at our venue. Many thanks to you all for doing the right thing everytime you came to visit the Lake Grace Swimming Pool.

The pool will close for 2016/17 season on Friday 31 March. We hope you have enjoyed this pool season with us and we look forward to (after a short break) the 2017/18 pool season at the Lake Grace Swimming Pool.

See you next season.

Letisha, Fee & Matt

Hay Stack Fires

The Shire advise that there has been at least 3 fires across the region in hay stacks over the last week or so with the last one east of Narrogin destroying 4000 large rectangular bales of hay.

The cause is believed to spontaneous combustion due to the hay getting wet in recent rains.

People who have large amounts of hay stored in the open keep a close eye on the stack for any signs of heat build-up and take appropriate action before a fire occurs.

Blaze Aid in Lake King

Following the February flood in the south east of our shire (approximately 25% affected) we were contacted by Graham Jacobs on Friday 3rd March, informing us that BlazeAid was offering assistance to affected farmers in the Shire.

It was necessary to act fast so an SMS was sent and a register was set up at the Shire. By Tuesday, 14 requests for assistance were logged, the BlazeAid co-ordinators were informed and began their preparation to locate to Lake King as their base.

On the 14th March Ed and Judy, the BlazeAid co-ordinators stopped in Lake Grace to drop off forms and posters and phoned ahead that they were requiring a place for themselves and the volunteers to park their vans, shower, gather for their meals/prepare meals/brief teams on the days' work etc. It was essential that they had an area on their own, not with holiday makers, as they could be a bit disruptive.

The only suitable place was the pavilion as it ticked all the boxes, but we didn't have time to book and there were a couple of other activities that were earmarked to occur (cement work and court resurfacing), but it was decided that we could work around them. The BlazeAid team were happy to clean up after the summer recess and the dust etc that accumulates after months of non-use.

We have had a mainly positive response to the BlazeAid volunteers assisting our local farmers, some even donating meat, money etc knowing it's going to a good cause.

If there are any farmers who have not already registered and require assistance from BlazeAid please phone the Shire and their details will be forwarded to Ed and Judy.

CLEANER

Area 8 – Lake Grace

The CBH Group is Australia's largest co-operative and a leader in the Australian grain industry, with operations which extend along the value chain and include grain storage, handling, transport, marketing and processing. We are an equal opportunity employer, committed to providing a safe and rewarding working environment for our people, with a strong culture of developing and enhancing our employees' capabilities. We invite you to become part of a dynamic, diverse organisation with a bright future.

The Role

We are currently seeking capable and committed cleaner to join our team for evening and weekend cleaning duties. The hours are flexible. This role is located in Lake Grace 325km from Perth.

Key Responsibilities

- Carry out all general cleaning duties both business and domestic in nature, achieving the set standards of cleanliness and presentation to meet company needs and exceed expectations;
- Clean all public areas of the business as assigned to you ensure good presentation;
- Maintain cleanliness of restrooms, washrooms, reception, stores, kitchen, boardroom and workstations;
- Clean mirrors, windows, wipe and dust all surfaces, vacuum and mop where needed;
- Ensure all supplies are replenished to correct standards;
- Use of various chemicals;
- Maintaining high standards of cleanliness, and
- Regularly cleaning the accommodation huts

Skills and Experience

- Reliable and Motivated
- Can Work Unsupervised and Efficient
- Neat and Tidy
- Honest and Trustworthy

If this position is right for you, apply before close of business Friday, 7 April. Alternatively, for further information please contact Nicole Argent on ph (08) 9890 2333. To find out more about working at CBH go to <http://careers.cbh.com.au/>.

We reserve the right to close this vacancy earlier than the advertised closing date if sufficient applications are received prior.

A Man of Vision (cont.)

O'Connor is best known for his work on the Goldfields Water Supply Scheme, also known as the *Goldfields Pipeline*. This pipeline — perhaps the world's longest water main — carries water 330 miles (530 km) from Perth to Kalgoorlie. A succession of gold rushes in the Yilgarn region near Southern Cross in 1887, at Coolgardie in 1892, and at Kalgoorlie in 1893 caused a population explosion in the barren and dry desert centre of Western Australia, exemplified by towns like Cunderdin and Merredin.

On 16 July 1896, John Forrest introduced to Western Australian Parliament a bill to authorise the raising of a loan of £2.5 million to construct the scheme. The pipeline would pump 5 million imperial gallons (23,000 m³) of water per day to the Goldfields from a dam on the Helena River near Mundaring Weir in Perth, pumped in eight successive stages through 330 miles (530 km) of 30 inch (760 mm) diameter pipe to the Mount Charlotte Reservoir in Kalgoorlie. The water is then reticulated to various mining centres in the Goldfields. The lake created by Mundaring Weir is now known as *Lake O'Connor*, and still provides drinking water for the towns along the pipeline to Kalgoorlie.

O'Connor was subjected to prolonged criticism by members of the press and also many members of

the Western Australian Parliament over the scheme. John Forrest, always a supporter, had left Western Australian politics to become federal defence minister; defamatory attacks by the press had wounded him.

If you think you've got a fair bit on your plate spare a thought for O'Connor who was also engineer-in-chief and acting general manager of railways in Western Australia. Upgrades of existing lines and plans for new lines were made. The search for water for the Northam-Southern Cross route was initiated by O'Connor.

O'Connor took his own life on 10 March 1902, less than a year before Forrest officially commissioned the Goldfields Water Supply Scheme, by shooting himself while riding his horse into the water at Robb Jetty, south of Fremantle.

Farmers Maintain Access to Popular Insecticide Dimethoate

Media Release

Australian farmers will continue to have access to a popular insecticide following a decision from the Australian Pesticides and Veterinary Medicines Authority (APVMA) that confirms dimethoate is safe and effective to use on a number of agricultural crops.

The APVMA decision follows a thirteen year reconsideration of the insecticide, which commenced in 2004 to confirm the safe use of dimethoate and that possible exposure to its residues in food is within safe limits.

APVMA Executive Director, Scientific Assessment and Chemical Review, Dr Jason Lutze, says that the findings on dimethoate are a result of extensive engagement with industry, over a number of years, which has provided the evidence required to allow a number of uses to be maintained.

"Farmers can still use dimethoate on avocado, cereal, citrus, cotton, mango, peanut and pulse crops, and the amended labels outline new instructions that will protect the health of workers," Dr Lutze said.

"A number of these uses would not have been possible had we made a final decision in 2011."

The APVMA took interim regulatory action to suspend the use of dimethoate on many food crops and in the home garden in 2011 following advice that residue levels could exceed the recommended public health standard.

"Since the suspension, we've undertaken significant engagement with industry that included numerous calls for data," Dr Lutze said.

"People have had time to generate that data, to consider the possibility that particular uses would be removed indefinitely and the opportunity to adjust their agricultural practice."

The final regulatory decision restricts the use of dimethoate in oilseed and fodder crops, and removes approval to use dimethoate in the home garden, on some tropical fruit crops and some vegetables where there is insufficient data to confirm these uses are safe.

LGDHS Interschool Swimming Carnival (cont.)

Overall, the Lake Grace Interschool swimming team won the Handicap and came fourth place overall. Congratulations to the 6 people who came runner up or champion. At the end of the day, the students were feeling tired but happy of their achievements on the day. The bus trip home was full of good vibes and smiling faces.

Thankyou to Kojonup DHS for hosting another successful interschool swimming carnival. Also thanks to Mr Dines for driving the bus and Miss MacTaggart for organizing the Lake Grace DHS Interschool Swimming Team. Congratulations to the students who attended and gave their all to represent LGDHS.

Farmers Maintain Access to Popular Insecticide

Dimethoate (Cont.)

The full details of the regulatory decision, including a list of crop uses that are being retained, removed or amended are available from www.apvma.gov.au/dimethoate.

A number of alternative registered chemicals are available for many of the uses that have been removed.

The new labels approved by the APVMA include only those uses that have been confirmed as safe and also include amended safety directions and re-entry instructions to protect workers.

Retailers can continue to sell existing agricultural products with the old labels for a period of 24 months and farmers are encouraged to use up existing stock during the phase out period.

20 March 2017 October 2016

For the latest from the Australian Pesticides and Veterinary Medicines Authority go to www.apvma.gov.au or follow us on Twitter: @APVMA

From 6 March 2019 all agricultural products containing dimethoate that are sold in Australia must have the new

approved labels.

Permits have been granted to ensure that growers may continue to use dimethoate products bearing the previous labels during this phase out period.

The supply of household products containing dimethoate is to cease immediately and consumers have 12 months under the phase out period to use existing stock.

Humour

Don't Even Ask About Condiments...

Scene: office cafeteria line

Friend: May I have pepper and salt?

(Counter guy looks confused.)

Friend: Sir? Pepper and salt?

(Counter guy grabs a bell pepper.)

Friend: No! Not that pepper. The pepper and salt ...

Me: You know, like you shake it on?

(Coworker looks over.)

Coworker: Dude! She means the salt and pepper!

Counter guy: Oh! Why didn't you just say that?

Friendly Competition

My girlfriend and I often laugh about how competitive we are.

But I laugh more.

A Dumb Driver's-ed Answer

My sister didn't do as well on her driver's-ed test as she'd hoped. It might have had something to do with how she completed this sentence: "When the _____ is dead, the car won't start."

She wrote: "Driver."

Life With A Blonde Teenager...

SCENE: My teenage daughter and me in the car.

Lauren: Dad, do you know what the most commonly used letter in a girl's name is?

Me: Hmm, is it a consonant or a vowel? (*Silence.*)

Please tell me you know what consonants and vowels are.

Lauren: You're no fun, Dad. Forget it.

Me: What is a vowel?

Lauren: OK, OK. A vowel is ... ahh ... eh ... well, oh ... uh ...

Me: Close enough.

Bush Tucker Plant - Wongup / Quandong

Wheatbeltnrm.org.au

The Wongup is also known as Quandong and is a unique native fruiting tree that grows up to 7m.

It is a hemiparasitic plant; attaching to the roots of another plant and using it as a water and nutrient source. One plant can attach to a number of host plants for survival.

Wongup trees can also tolerate high soil salinity and can frequently be seen on the fringes of salt lakes. Trees typically grow 2 to 3 metres in height, with a dense crown of leathery leaves perhaps 2 metres wide.

Wongup grow in a wide variety of soils including white, grey, yellow-brown or red sand, clay loams, and landforms including coastal dunes, gravelly plains, granitic outcrops and creek beds and lake margins.

The small flowers are green-white to red-brown, and occur during January to April, or July to September, or November to December.

The round fruit range in colour from yellow, pink to deep shiny red and have a distinctive tart flavour which can be sweetened with sugar or honey. The flesh is high in vitamin C, and low in sugar.

Noongar uses

- Traditionally Noongar people would eat the succulent bright red fruits raw or dry it out to store for later use.
- The roots have edible suckers that are juicy and succulent with a bitter or sweet taste.
- Wongup flowers were also soaked in water to make a sweet drink.
- Wood was used by Noongar for shields, after which families would return to eat the raw, sweet gum that oozed from the wounded tree.
- Removing the outer peel uncovers a kernel which can be cracked open to reveal the nut, which is then roasted and eaten.
- The seeds contain oil which can be used for skin moisturising and treating skin sores. Just grind the seeds into a paste and add water.
- The fruit makes a tasty snack and can be made into pies, jams and jellies jams and preserves.

Cultivation

Propagation and cultivation has been considered difficult. Seed has a dormancy that is strongest in fresh seeds.

Gardening Gurus in Lake Grace

Suzanne Reeves

Anyone who gets a water account has been receiving advice from the Water Corporation about how to reduce his or her water use. With over 40% of household water used in the garden, our outdoor lifestyle has come under the microscope with plenty of advice on reticulation, plant types and garden planning that could help reduce water usage and therefore our water accounts.

The Beyond Gardens team will be in Lake Grace this Saturday 1st April, speaking from 3:30pm to 5:30pm at the Lake Grace Community Resource Centre. The team have a wide variety of expertise ranging from planting types, planning, and reticulation through to plant health.

In 2011 the Beyond Gardens crew came and planted the garden in front of the Lake Grace Library and CRC; 55 varieties were planted some of which were considered 'out there' for this area. Of the 55 varieties, 19 have decided for one reason or another that Lake Grace wasn't the place for them. The others have flourished and a couple of new varieties have been brought in. The garden is a fantastic example of what flourishes in Lake Grace on a garden bed of building sand (with a base of clay) while receiving full exposure

to the sun, wind and frost; with watering kept to the recommended amount.

A big thank you to Annie Slarke and Elsie Bishop who have helped Chloe Robertson update the CRC/Library garden map. This map, with a full list of the plantings, will be available on Saturday for anyone wanting to access a list of native plants suitable for growing in Lake Grace.

What We Do At The Community Resource Centre

Centrelink: The CRC is an access point for Centrelink, which means we can photocopy and verify your original documents; fax 'stuff' for you or help you access forms whether it be from the supply we have on hand or through the internet. We also have a phone that customers can use to call the Call Centre and will be getting a computer solely for Centrelink use.

ATO: We are also an access point for the Australian Taxation Office. We have a supply of their forms on hand (or can download them), can help you apply for an ABN over the internet or can give you free access to a computer so that you can complete your tax return online.

Government Computer: As part of its contract the CRC has a computer available, free of charge, for anyone needing to access state (WA) government websites.

Computer Training: We have in house training for Beginners, Excel, Word (Beginners & Intermediate), Publisher, Outlook, Internet, Social Media and Digital Photos. If the interest is there we can also source trainers to provide other IT training. We also provide one on one training at the CRC.

Other Training: The CRC also sources training workshops for Skippers Tickets, Chemcert, Forklift, Chainsaw & MC Assessment. These courses are reliant on the needs and wishes of the local community.

Photo Printing: Glossy photos of 4" x 6" (standard) and 6" x 8" are able to be printed on the photo booth.

Scanning: The CRC has an excellent scanner that can scan negatives, slides, photographs and documents. These can then be burned to a CD or DVD and/or printed. We also have a scanner that can convert a scanned document into word text, or we can scan a multipage document into a single pdf document.

Photocopying: We can photocopy anything up to A3 (twice the size of this page) in both black and white and colour. Items can be increased in size or decreased (very handy for the crafty people).

Printing: The CRC has a wide format printer than can print up to A0 (841mm x 1189mm) as well as banners on a variety of mediums. Can also print on canvas.

Passport & ID Photos: The CRC is able to take and process your passport or ID photos.

Dubbing & Converting: We can convert your videos to DVD.

Digital Photos: If you need some photos taken (within Lake Grace boundary) we can take them and either burn to CD/DVD, print or email. If you are a keen photographer but don't have your own computer we can download the images for you and put them onto a DVD for you. We also have mounts for using when

framing your photographs (have a good selection of colours).

Card / Paper etc: We have a selection of coloured paper and card (of varying thicknesses) in both A4 and A3 available, plus a variety of labels (we can also print your labels for you).

Desktop Publishing: CRC staff can create pretty much anything you want in the way of posters, leaflets, booklets and banners. Whether it's a birthday invite or a birth announcement to a thank you card or calendar we are able to create it for you.

Secretarial Services: Want a letter or some minutes typed up? The CRC can do that, they will even attend meetings and take minutes if needed.

Equipment Hire: We have an amplifier, digital projector, screen and whiteboard available for hire.

Venue Hire: The fully ac/heated seminar room, with interactive whiteboard, widescreen TV, DVD & video players and wireless internet is available for hire.

Computer Use: The CRC has five computers available for public use; they are all installed with Windows 10 and Office 2016. Computers can be hired individually or the computer area can be hired in it's entirety for an hour or a day by any organisation.

Faxing: Are able to fax any documents, locally and internationally.

Email: Need an email sent but don't have a computer or email account, we can do that for you.

Memberships: Are a very economical way to have unlimited access to the internet. Members also receive reduced rates for photocopying, printing, desktop publishing, hire of equipment plus more.

Community Newspaper: Most importantly the CRC edits, prints and collates the Lakes Link News; a vital source of information for the community of Lake Grace.

Licensing: The CRC conducts the theory testing for drivers licenses.

Videoconferencing: The CRC has videoconferencing available.

TAFE: A variety of TAFE brochures are available at the CRC for a wide variety of studies that are available; from nursing and office studies through to horticulture and agriculture.

Lake Grace Calendars: Toward the end of each year the CRC creates calendars using local photographs. Ideal as Christmas gifts. We also put together personalised calendars.

Roadwise and LCDC (Land Conservation District Committee): The CRC has partnerships with both of these organisations.

Thank you

Many thanks to all the
 neighbours who have attended
 and helped with our 2!
 fire mishaps.
 Very appreciated.

Shaun & Yvette Downey

Sudoku

- ☐ The Sudoku grid of rows and columns is divided into individual 3x3 boxes.
- ☐ The aim of the game is to fill each row, column and 3x3 box with the numbers 1 to 9.
- ☐ You can't repeat numbers in a row, column or 3x3 box and you can't change the numbers already in squares.
