## Feed The Soil

Suzanne Reeves

How many of us when gardening have been guilty of not preparing our soil properly before planting? Often the excitement of a new garden space, plant or punnet of seedlings carries us away and for that we pay! Looking after the soil was the consistent message from Beyond Garden's John Colwill and Steve McCabe at their recent Gardenwise seminar held at the Lake Grace CRC.

It's all in the preparation. By improving our soil we save ourselves a lot of headaches in the long run as by feeding our soil we're feeding our plants. The best soil improvers are those based on organic matter. Not only do they increase the water and nutrient holding capacity but they also provide the raw material that supports life in the soil. Getting the soil right is the key to healthy plants with minimum resources.

Gardeners can continue adding to their soil with the use of manure (not too much), compost and by depositing your prunings, leaf litter and flower heads into the garden beds. This is how nature has been doing it for years. A must for our gardens is wetting agents; it is recommended that you apply these to water repellent prone soils in spring, again in mid-summer and just before the first rains in winter. Always water in thoroughly immediately after application.

Another must do for gardeners, particularly in a harsh climate such as ours, is to apply mulch. Waterwise mulches have large irregular shaped particles that absorb little if any water. These are ideal for use across the entire garden. Pine bark and stone have shown to reduce water use in the garden more than any other mulch.

The two-hour workshop was entertaining and informative and for me was a great catalyst for getting out in the

**Image: Steve McCabe and John Colwill were entertaining presenters for the Beyond Gardens seminar.**

garden during this beautiful Autumn weather and do some much needed tidying up. For those who couldn't make it to the workshop or want a refresher on some of the points brought up go to <http://www.beyondgardens.com.au/elearning.php> and follow the prompts. Beyond Gardens also have an excellent interactive blog; they welcome new members.

# Editorial

- ☺ Thank you to all of you wonderful people who attended the **Drug and Alcohol Information** session that was held last Thursday. Unfortunately the evening completely missed the mark which considering the planning that had gone into it, was a disappointment. In the planning phase a face-to-face meeting was held with a Holyoake representative, CRC staff and a number of stakeholders. That meeting was interesting, interactive, engaging and educational; pretty much everything that Thursday night should have been. This representative was to be a part of Thursday's presentation but was sent on a training workshop instead. We had listed the items we felt needed to be covered during the evening including early intervention. This question was asked on the night; unfortunately it wasn't answered, in fact none of the questions were answered adequately. The positives from the evening were the wide range of people who attended, the fantastic venue, the fabulous catering and all of those who helped with setting up and packing up. The other positive is that the conversation has started. I have spoken to Holyoake about where we go from here; that I understood the importance of staff training but our prior booking should have taken some form of precedence. I have also relayed that this poorly presented workshop has damaged Holyoake's reputation and I feel it hasn't shone a particularly good light on the CRC! I am currently still in conversation with Holyoake as to how we provide people with the information that they need, not just now but in the long term future. Part of the solution will be smaller, more targeted groups (with no power point). Local police and the CRC are looking at setting up a Local Drug Action Group (LDAG). Run similar to Roadwise the group will focus on drug education and action for our community. We will be needing representation from all facets of the community so if you are interested please drop me an email or give me a call at the CRC.
- ☺ We still have a box of **waterwise showerheads** available for anyone wanting to swap their old one over for a new one. Make the most of the opportunity before it's too late!! The programme ends in May.
- ☺ If the police pull you over during the next couple of months and you don't think you've done anything wrong please greet them with light hearted friendliness as you may have been driving so brilliantly that they want to acknowledge that fact. Lake Grace Roadwise will be giving away some **\$25 fuel vouchers** for motorists who are driving safely and our local police are going to have the task of passing them out.
- ☺ **Food Sensations** is happening in May (4th—25th), running over four Thursdays (around 2 hours for each session; it is important that you attend each week. The programme talks about healthy diet,

reading labels, fat/salt intake and how to create healthy meals from scratch. Participants engage in an information session via videoconference before preparing a meal that they enjoy together. There is no cost and places are limited.

- ☺ We have been successful in obtaining funding for a Volunteer breakfast. This will be held on Tuesday 9th May; places are limited to 60 (don't think we'll get those numbers but you never know) and we're hoping every club and organisation in Lake Grace will send a representative along. Volunteers are the backbone of many organisations and it is important to recognise and reflect on this.
- ☺ Good news from CWA!! The Op Shop will be opening on Tuesday 2nd May from 1pm to 4pm.

*Suzanne Reeves*

## Workshop/ Information Session Calendar...

**Food Sensations** - Thursday May 4th, 11th, 18th and 25th. Only ten places available. FREE.

**Excel for Beginners** - We will be holding this workshop on Wednesday 19th April. It will run from 9:30am to midday (see left). Cost is \$30 per person, only four places available.

**Downloading Photos from your Phone or Tablet** - How to transfer photos onto your computer or onto a thumbdrive. Wednesday 26th April. 11am to midday. Cost is \$10 per person.

Being A Better Boss - Partners In Grain.

**Facebook** - Needing a little help with your page? Want to load photos or documents? An informal session on Wednesday 3rd May. 11am to midday. Cost is \$10 per person.

**Expression of Interest** - We are looking for expressions of interest for Facebook for Business; Facebook for Club/Organisation. If it would suit you to have these workshops in the evening please let us know.

If you are interested in any of the above please phone the Lake Grace Community Resource Centre on 9865 1470.

## What's Happening?

Sincere sympathy to the family and friends of Ken Jenks who passed away on Monday 3<sup>rd</sup> April. Ken is survived by his wife June; children Michael, Allen, Jacqueline and Lisa; 12 grandchildren and 1 great grandchild. Condolences also to Ken's sister Coralee and his brothers Harry and Colin and their families.

Condolences also to the family and friends of Steve Crook who passed away suddenly on Sunday the 9th of April. Our thoughts and sympathy to Velia Crook for her loss.

# Lake Grace District High School ANZAC Day Ceremony

*Hannah Clunie and Whitney King*

The thud of the cadet boots echoed throughout the Lake Grace DHS undercover area as the booming drumbeat guided their steps. They flanked the students and community members who were attending the ANZAC Ceremony.

The 2017 Lake Grace District High School ANZAC Commemoration commenced at 9.45am on Friday the 7<sup>th</sup> of April. The Year 9/10 students volunteered to practise and then present speeches for the ceremony. They also set up the sound system for the service. World War 2 posters of heroes and battle zones were displayed at the front of the Commemoration area. The Year 7/8 students contributed to setting up by placing chairs for the community, the returned war veterans, and wheelchair places for the elderly. Students from Years 3, 4, 5 and 6 played a part in the service by creating their own speeches to present.

All high school students contributed by cooking their own dish for the morning tea that the community members enjoyed as they chatted to one another about the successful service. Comments were made such as "That was a great event" and "Everyone did a really good job."

Overall, the ceremony ran smoothly and was highly successful. The students who participated on the day did well to hide their nerves and present their speeches. We would like to thank those who attended the commemoration and especially Ms Wilson who organised the event.

**Above: Hannah Clunie speaking at the Ceremony.**

# Jack's Visit

## Walkers Hill

I'll take you back to September 2016. After a very long and cold winter we were looking forward to some warm spring weather. We had had an abundance of frosts over the winter period with two final ripper ones in September. Grape vines don't mind a frost, this is what wakes them up out of dormancy, but as we were to discover, as with any crop, Jack can destroy.

These final two frosts occurred just after bud burst and burnt the young buds. These emerging first buds are actually the fruiting buds which produce the bunches. And as we were to discover ½ of the vineyard didn't produce at all and the other half was greatly reduced leaving us with just enough grapes to process into wine.

Our winemaker is going to make a Shiraz/Chardonnay blend Rose' which we are aptly naming *Frosted Rose*. This will be available about June.

We have since learnt that fellow vintners here and in New Zealand set up smoke hazes when they know there will be a frost. This comprises of setting up oil pots or hay bales at the corners of the vineyard and getting up in the freezing cold of the night to light them up. This produces a smoke haze across the vines which stop the cool air and moisture from settling on the vines

decreasing the risk of frost. Does it work? Apparently. Will we be trying it? Watch this space.....

On Tuesday 14<sup>th</sup> March we held our community pick with proceeds going to Lake Grace St John's Ambulance. We have been supporting St John now for a number of years and to see where our donations have been utilised makes it all the worthwhile. I would like to congratulate Amanda Milton & her team on a fabulous job well done. You are an asset to our town and have worked hard to give us an even bigger asset that will be utilised for many years to come. Amanda has informed me that they will be using our donation this year purchasing training mannequin's that give feedback on how you have performed and for the continued training of our volunteers.

We would like to thank the local community that came out and helped to pick, it is very much appreciated and you should feel proud that you have also help contribute toward the building of the new sub centre.

# Youth and Cancer

Media Release - Cancer Council

- Youth make up approx. 2% of cancers diagnosed in Australia.
- Common cancers, breast, testes, **most common melanoma**, lymphoma and thyroid.
- Youth living outside cities more likely to be diagnosed with cancer than city youth

## How to reduce cancer risk when adults

- By instilling good healthy behaviours in children and youth can reduce their cancer risk when adults
- Parents can help by being good role models
- Biggest risk factor for young people is being overweight and obese. In WA 1:4 children and teenagers are overweight or obese.
- Recent modelling shows that young adults are gaining more weight than they were in previous generations and by 2025, 35% of population will be obese.
- Overweight children have a much greater chance of becoming obese adults.
- Obesity is a risk factor for 13 cancers (including bowel, breast, pancreas, ovarian, kidney, blood and brain cancer) and toxic fat leads to fatty liver disease - linked to liver cancer.

## Key messages – (as per adults)

- Don't smoke!
- Eat healthy food – young people are not eating enough fruit/veges!
- Be physically active - during adolescence, minimum 60 minutes moderate/vigorous activity every day.
- Maintain a healthy weight
- Be SunSmart – most common cancer **melanoma** in this age group, also most preventable.
- Avoid alcohol – don't binge drink
- Tune in to your body – what's normal, see GP with any changes
- Younger 'youth' – have the Human papillomavirus (HPV) vaccine against cervical cancer. Immunising boys helps girls by decreasing their chance of getting HPV and therefore cervical cancer. High-risk HPV can cause other cancers, such as penile cancer, or cancers of the head and neck, By vaccinating boys they too are being protected against certain cancers.

**Price \$225, 000**

## 2017 Seniors Games

This year seniors from Lake Grace attended the Seniors Games held at Tammin.

A well prepared and excellent venue, credit must go to the Tammin seniors and community for their efforts. These games would cease if we didn't have the community to assist.

Although the Lake Grace seniors were unable to come home with the trophy, we all excelled and had a wonderful time.

Thanks to our driver (Pauline) for getting us there and back safely.

0	Friday and Monday
You may water only once each day either before 9am or after 6pm.	

## Football / Winter Sports

It is nearly time for all the OFA football, netball and hockey season to start! The first game for our OFA teams will be on Saturday 29th April at Lake Grace against Boxwood Hills.

This is due to our first round game at Borden now being a bye, as unfortunately Borden have made the decision to go into recess for the 2017 season.

The Jumper Presentation night will be held the Thursday night prior to this first game. All the winter sports are invited to attend and team officials will give an update on their teams for 2017.

Supporters are welcome to come along and watch training sessions (Tuesday and Thursday evenings). Thursday training night teas courtesy of the 'Greg & Greg Bar & Grill' are now available after training in the footy shed.

Looking forward to a great season, see you there!

## Lake Grace Pingrup Football Club Inc

# BioBlitzing the Wheatbelt

## Wheatbelt NRM

The 2016 Tarin Rock BioBlitz was the eleventh BioBlitz held in the Wheatbelt and was jointly organized by Wheatbelt NRM and Dumbleyung Landcare Zone, with key support from local Department of Parks and Wildlife staff.

The collaborative biological survey was held early October 2016 near Lake Grace in the southern part of the Avon River Basin. Site surveys were conducted on Tarin Rock Nature Reserve, North Tarin Rock Nature Reserve and Reserve Number 38379, in an area totaling 4000 hectares of remnant vegetation.

Professional and amateur biologists, ecologists and naturalists worked together as 'citizen scientists', conducting fieldwork with local community members and participants to discover more about this area's high conservation value bushland and biodiversity.

Over 60 people attended the event despite heavy winds and rain being forecast. Thankfully the inclement weather was short lived and attendees were able to enjoy relatively dry but cool conditions for most of the weekend.

## Highlights

The BioBlitz's most exciting discovery was large collections of chewed quandong nuts (*Santalum acuminatum*) at specific feeding sites under dense bushes, indicating the presence of the conservation dependent Western Mouse (*Pseudomys occidentalis*). It was fabulous to see evidence of the species still surviving here as it hadn't been seen on this reserve since 1992.

Other highlights included a Wedge-tailed Eagle (*Aquila audax*) nesting with its chick, camera trap footage of a threatened Red-tailed Phascogale (*Phascogale calurs*), visually striking Jan's Branded Snakes (*Simoselaps bertholdi*), and the intriguing discovery of two rarely seen Turtle Frogs (*Myobatrachus gouldii*) that were found dead and were being consumed by ants.

## Other results

The botany groups had a field day at the BioBlitz, identifying 200 species of plants, fungi and lichen. This is a fantastic effort in just 24 hours and reflects the region's extremely high biodiversity where over 900

## BioBlitzing the Wheatbelt (cont.)

species of plants have been identified by previous surveys.

Considering the damp and windy conditions, the herpetology (reptile) survey and foraging teams were very productive, identifying nine species of reptile and two frog species. The ornithology (bird) groups also did well identifying 35 species, while the entomologists (insect spotters) excelled with over 100 insect species found.

Evidence of nine mammals was recorded during the survey via motion sensing cameras and scats. The cameras were placed on the reserves prior to the survey and revealed the exciting presence of threatened Red-tailed Phascogales. Sadly, it also showed numerous feral foxes and feral cats in the same area, as well as rabbits and house mice.

### Report

The information and data gathered during this BioBlitz will provide an invaluable snapshot of the region's environment which will help with future monitoring and management work in the remnant bushland.

Results from the Tarin Rock BioBlitz are being collated into a report which could also help local groups access funding for preserving native wildlife and flora in the area.

The Tarin Rock BioBlitz was funded by the Australian Government's National Landcare Programme and made possible through the hard work of many wonderful volunteers. Huge thanks to everyone who helped out and also to those who attended.

# Lake Grace Swimming Club

Shelley Stanton

The Lake Grace Swimming Club ended their season on Wednesday 22 March 2017 with a sausage sizzle and presentation of awards.

What has been another great season again this year with 18 members, we managed to even get a couple of new members!

Kate Zweck continued to coach this season, even though she has no kids of her own left in the club. Kate has a passion for ensuring that children are taught the correct techniques of swimming and also about keeping the children fit and active.

Whilst no one ventured away to any swimming meet this year, I'm sure that we will see a couple of the younger ones ready to take on that challenge in the future.

Our award winners for this season were as follows;

Most improved Junior                      Cambell Chatfield

Most Improved Senior                      Stella Dines

Swimmer of the Year                      Reegan Marshall

We ended the season with a sausage sizzle and icecream, along with presenting Kate with a thankyou

gift for her continuous support and dedication to the club.

Swimming club will commence in November this year, once we hold our AGM in October. The club also had new shirts designed and made this year. Thanks to Melissa Cugley for the design. If anyone is interested in joining swimming club for the 2017/18 season, please keep a look out for the AGM, which will be advertised in the Lakes Link in October.

**Coach Kate Zweck giving some advice to the swimmers.**

## ANZAC SERVICE

When : Tuesday 25 April 2017

Where : RSL Lake Grace Branch

Time : 11AM

Food Sensations for Adults is funded by the Department of Health.

# National Youth Week Celebrated With The Trolls

Children came prepared with their bean bags, small mattresses and blankets to watch a movie on the big screen. They all received a complimentary bag of popcorn, bottle of water and a National Youth Week bag.

Saturday 1 April Lake King Memorial Hall bustling with approximately 50 parents and children eager to watch the happy trolls and the Bergens, an ogre-like race. The animation *Trolls* is a comedy extravaganza from the creators of *Shrek*.

Greg from Starwest Event & Party Hire set up the large blow up screen in the hall and at 6.45pm everyone was settled in to watch the Bergens invade Troll Village. Poppy the optimistic and happiest Troll ever born leader, and her polar opposite, Branch, go on a mission full of adventure and mishaps, as this mismatched duo try to tolerate each other long enough to rescue her friends.

The evening gave everyone a chance to chat and spend time with their children and the community.

Thank you to National Youth Week and the Department of Local Government and Communities and the Shire of Lake Grace for the opportunity to hold the movie night at Lake King.

**LIBRARY CLOSED TUESDAY 25 APRIL**  
**ANZAC DAY**

# Is Education the Key?

Suzanne Reeves

*\*methylamphetamine is commonly known as Ice; it will be referred to as Ice to save on space.*

Drugs, both illicit and legal aren't new; opium was used by the ancient Sumerians in 5000BC, the first description of a brewery was recorded on an Egyptian papyrus in 3500 BC, tea rated a mention in a Chinese dictionary in 350AD while tobacco was introduced to the Europeans by Columbus in 1493. Opium was widely used in China in 1000AD while Coca Cola removed the magic ingredient of cocaine from its popular drink to replace it with caffeine in 1903.

History also shows that wars have been waged, protests have been staged and prohibition introduced to fight the havoc that drugs wreak on the health and wellbeing of the individual and the community as a whole. In 1691 in Luneberg, Germany, the penalty for smoking tobacco was death; I guess it was one way of getting the message across.

Prohibition appears to have had little effect when introduced for tobacco and alcohol; legalising these products may have taken pressure off the judiciary but put more pressure on the health system. An extreme version of prohibition was introduced in 1941 by the Republic of China's leader, Chiang Kai-shek, providing

the death penalty for anyone cultivating the poppy, manufacturing opium or offering it for sale. In 1946 there were an estimated 40 million opium smokers in China. Large numbers by any account and 8% of their population, death didn't appear to be much of a deterrent.

Richmond P. Hobson, prohibition crusader and anti-narcotics propagandist, is quoted as saying "Suppose it were announced that there were more than a million lepers among our people. Think what a shock the announcement would produce! Yet drug addiction is far more incurable than leprosy, far more tragic to its victims, and is spreading like a moral and physical scourge. Most of the daylight robberies, daring holdups, cruel murders and similar crimes of violence are now known to be committed chiefly by drug addicts, who constitute the primary cause of our alarming crime wave. Drug addiction is more communicable and less curable than leprosy. Upon the issue hangs the perpetuation of civilization, the destiny of the world, and the future of the human race." This quote was recorded in 1928. What would Mr Hobson's thoughts be to see how we're faring 90 years later?

The social mayhem, domestic violence and loss of

**Care outside normal opening hours-** When the Lake Grace / Newdegate medical centre is closed you can always get medical attention by calling ReadyCare **1800 225 523** or by attending the Lake Grace District Hospital, located in Memorial Drive Lake Grace where experienced staff will triage the patient and contact the on call Doctor.

**For all Emergencies call 000**

# Sculpture In The Harbour

*Chloe Robertson*

You may remember local artist, Kerrie Argent's last sculpture, *Homeless*, which featured in *Sculpture by the Sea*, an annual art exhibition held at Cottesloe beach in Perth. With approximately 24 different volunteers helping Kerrie put together her work, it was a big task. Kerrie's hard work has paid off, her sculpture has been hired for the entry statement piece on the 6<sup>th</sup> of May for the Vancouver Street Festival in Albany which is a fantastic opportunity for Kerrie.

You may have heard of *Sculpture in the Harbour*, an art exhibition where local artists have the opportunity to showcase their work in the Princess Royal Harbour in front of the Albany Entertainment Centre. First held in 2013 then again in 2014, this year is the third *Sculpture in the Harbour* for Albany and Lake Grace local Kerrie has been selected to put a piece of her design in the exhibition. The exhibition's name is *Vessel* which starts on Thursday the 13<sup>th</sup> of April and finishes on the 17<sup>th</sup>, Kerrie's work is called "Ebb and Flow the Choices we Make".

Kerrie sees our bodies as vessels, keeping to the name of the exhibition, and believes the direction in life we go is dependent on the choices we make as we move through childhood, our teenage years, young adulthood and as an adult. Our parents direct us in early life but as we grow older we become the ones in control of the directions we go. We often have more than one choice of right or wrong, left or right, etc. but in the end, whatever way we decide to go, it is ultimately our choice.

The doorways in Kerrie's work represent the choices and opportunities we have, many times we move back and forward through these doorways as we grow and mature, eventually choosing the way that suits us best. The flowers represent the life force moving around

in the water and finally selecting the direction we want to go. Whether the choice is right or wrong, it is the choice we make at that time.

Kerrie wants to point out that these projects aren't possible without support from the community. Without the donation of sauce bottles from community members from Lake Grace and Esperance the past two years, or local butcher Dean Sounness giving Kerrie his large sauce bottles or Deanna Ashley from Eneabba or Mark and Karen Seaman from CCL who generously donated the wrong order of door frames to Kerrie none of Kerrie's pieces would be complete.

Kerrie is lucky enough to have a fabulous group of people who help out when she asks. Kerrie always has to plan months or sometimes years in advance to be able to collect enough materials for her projects. If you want to support local artist Kerrie start collecting plastic bottles of any colour, no matter what shape or size, for her next project.

## CEO's Corner

### Flooding Event – February 2017

Main Roads WA (MRWA) is currently assessing the submission made by the Shire and we are hopeful that confirmation of WANDRRA funding for repair works will happen in the next week. As soon as we receive confirmation of funding, a Tender will be advertised for construction and repair works. Consideration will be given to the timeliness of works as well as quality of construction.

News has been received of a "Temporary Exemption" of Shire day labour issues. The rules governing this exemption have yet to be released, but we understand that progress is being made to allow for local governments to be funded for using their own labour. A framework needs to be established to ensure that value for money is being obtained, when this work is undertaken in house.

Our grading contractors are still undertaking 'smoothing' works on our roads. This work does not involve any material importation, but is simply grading out ruts or damage in the road to remove washouts. We will start opening roads again as soon as possible, in light of vehicle capacity and water across roads. If a road is graded but still missing road base, it may not be possible to access these routes with restricted access vehicles.

For road closures please refer to the Shire's website [www.lakegrace.wa.gov.au](http://www.lakegrace.wa.gov.au) or Facebook page for a list of current roads that are closed within the Shire.

The BlazeAid base camp set up in Lake King will be closing on Thursday 13 April and relocating to Ravensthorpe with the camp opening Monday 17 April to continue helping those affected by the floods. The Lake King Camp statistics as at 07 April are:

- 18 Properties Registered
- 17 Properties Started
- 36 Volunteers Registered
- 134 Volunteer Days
- 2.6km Fencing Cleared
- 17.15km Fencing Rebuilt

These volunteers are to be commended for the giving of their time and willingness to assist others in need. A shared work load certainly brings light to those affected.

If you require assistance from BlazeAid you can contact BlazeAid on 0427 614 540. Further information is available on the website [www.blazeaid.com](http://www.blazeaid.com).

The Department of Child Protection and Family Support has set up a Disaster Response Hotline for families and individuals who may feel that they need some professional psychological support. The 1800 Disaster Response Hotline number is 1800 032 965.

If you are aware of families or individuals within our Community who have been affected by the flood events and may need some support, please encourage them to contact the Disaster Response Hotline.

### Strategic Community Plan Review

Following on from the recent community survey and community workshops held around the Shire during the last week in March, Councillors and management attended a workshop in Lake Grace last Thursday to workshop the results and set our new vision and strategic objectives for the 2017-2027 Community Strategic Plan. Councillors also considered and defined new desired outcomes and strategies to achieve the objectives. Russell Barnes and Jessica Sparks of Moore Stephens, the consultants contracted to review the Community Strategic Plan facilitated the workshop. The 2017-2027 Community Strategic Plan will now be finalised and presented to Council for adoption by 30 June 2017.

### Bush Fire Advisory Committee

The Bushfire Advisory Committee held their Annual General Meeting in Newdegate on Wednesday 5 April 2017. The meeting was attended by seventeen local fire brigade members and representatives from the Departments of Fire and Emergency Services, and Parks and Wildlife. The AGM saw the 2017/18 Fire Control Officers nominated the appointments and will now need to be ratified by Council at its next Ordinary Meeting.

A general meeting immediately followed the AGM with discussion on the water carrying capacity of the new Lake King Fire Truck which is currently being built, arrangements for replacement of the Community Emergency Service Manager and the lack of telephone reception currently being experienced throughout the Shire when power cuts occur.

### Building & Maintenance Team

This fortnight, Wayne Trawinski, the Shire's Building & Maintenance Supervisor, reports that work continues on the Lake Grace Independent Living units:

- Cladding is nearing completion on all 3 units;
- Ply-bracing has been installed;

*Continued over ..*

Shire of Lake Grace Community News *Cont.*

- Pre wiring for television and telephone has been installed; and,
- External doors have arrived and once these are installed the units will be at lockup stage.

Internal painting is nearly complete at the Doctor's residence, 6 Blackbutt Way Lake Grace.

Over the past fortnight maintenance requests have been completed at Varley public toilets, Lake King Hall, Lake King Pavilion, Lake Grace public toilets and Lake Grace Airstrip.

### Road Works

During the past fortnight, Doug Whiting, the Shire's Infrastructure Supervisor advises that the Construction Crew has been located on Hatters Hill Road, having now completed over eight kilometres of formation and gravel sheeting works.

The Road Maintenance Crew has been working in conjunction with the Construction Crew this week. The Newdegate and Lake King maintenance grading contractors are working on flood damaged roads.

### Parks and Gardens

This week the Town Maintenance Crew travelled to Varley for gardening work around the sports pavilion, mowing of the town entries, and spraying around the fire shed and town rest area (i.e. Chicken Ranch).

During the past fortnight in Lake Grace the crew has been slashing the open areas on the eastern side of town, and attending to playground maintenance. They have also been working at the RSL in readiness for the Anzac Day Service, around the Lake Grace Railway Station and tourist rest area, the lawns at the Visitor Centre, as well as the town footpaths.

Wishing you all a happy Easter break, if you are on the roads, stay safe.

*Denise Gobbart*

Agricultural Tyres (Seeding Tyres)  
4WD Tyres and Truck Tyres  
Air Conditioning (Regasing only)*

*Call Kim now on 98651291 or Paul on 0437 204909.*

## Great Job Opportunity for a Keen Individual

The Plant Operator/Labourer position is required to work in a team environment responsible for performing tasks and duties associated with infrastructure maintenance, road maintenance and construction projects. The successful candidate will ensure the strategic objectives and requirements of the Shire of Lake Grace are met by being a self-motivated team member and working to a high standard to carry out the operation of plant items and equipment including general laboring tasks. It is an essential requirement for this position that the suitable applicant has a MC licence.

## Plant Operator/Labourer

### Full Time

**\$52, 841pa**

**76 hours worked over a 9 day fortnight**

**Subsidised staff housing is available**

For further information contact Manager Infrastructure Services, Mr Paul Webb on 9890 2500  
To obtain an application package for this position please contact Shire of Lake Grace Administration Coordinator, Lee-Anne Trevenen on 9890 2500 or email [shire@lakegrace.wa.gov.au](mailto:shire@lakegrace.wa.gov.au)  
Applications to be marked 'Confidential' and addressed to;  
Chief Executive Officer, Shire of Lake Grace, PO Box 50 Lake Grace WA 6353

**Applications for the position close 4:00 pm Monday 24th April 2017**

**The Shire of Lake Grace is an equal opportunity employer.**

## Mural for Lake King - Finished and Looking Fabulous

The mural for Lake King is finished and looking fabulous. Students from Lake King Primary School were the originators of the subject of the mural, in that they were asked what best represented their community. The Lake King mural is their mural as it represents their perspective of life in Lake King. They also contributed in a more hands on way as they were able to put finishing touches to it, which they will be able to see as they grow into young adults.

The Lake King Mural has been a Youth Friendly Communities Project funded by the Department of Local Government and Communities and the Shire of Lake Grace.

Matt Fuller, the artist, is to be congratulated on his work, and the dedication that saw him travel from Williams to work on the mural for the youth of Lake King, while there he developed a great knowledge of the community.

Thank you to Lake King Primary School and Lake King Tavern for their support of this project.

*Above: Matt Fuller stands back to admire his work.*

*Above: Jessica Muir, Aidan McLean, Chloe Scherell, Isaac Sugg*

*Above: Jessica Muir, detailing*

*Above: Many community members came and put their mark by painting frogs, wheat and carefully putting their initials into the artwork.*

## Is Education the Key? (Cont)

human potential that drugs have wrought has been recorded throughout the years. The big question remains...what to do about it??

When looking at tobacco smoking rates education has proven to be the key. There has been a prolonged and consistent education campaign regarding the dangers of smoking for over 30 years and it's showing in the statistics. In 1945 70% of men and 26% of women smoked, it was around this time there was confirmation that tobacco use was a major cause of death and disease. A prolonged advertising and education campaign about the dangers of smoking has continued to grow and thirty plus years later it is showing in the statistics. In the 1970's 36% of the Australian adult population smoked tobacco, in 2016 it now stands at around 13%.

Tobacco certainly contributed to a plethora of health issues for the individual and those breathing in their second hand smoke. However tobacco hasn't demonstrated the wide range of social issues that illegal drugs are now presenting; violence, unemployment, poverty, neglected children and the families that are left bewildered and aggrieved at what has happened and feeling powerless to stop it.

Like tobacco, illicit drugs cross all borders; gender, employment, socio-economics and age. When a user tells that his first experience with Ice was at a 60<sup>th</sup> birthday party and that it was the birthday boy who supplied, you know there's a problem. When a solicitor is convicted for dealing, you know you have a really big problem. Drugs do not discriminate.

The National Wastewater Drug Monitoring Program has revealed some very nasty facts about drug use in Australia. Released in March this year the report clearly shows that Western Australia has the highest levels of consumption of Ice in Australia; with both city and regional sites far exceeding national averages. The report covered 58% of Australia's population and 51 sites were tested; three of these sites were in Perth and one was in Bunbury. Analysis extends to 13 drug types and the programme will run for three years.

Throughout Australia, Ice is the most widely used drug and Australia ranks second in the world for the use of this drug.

A 2013 household survey showed that 3.8% of West Australians used Ice, this is nearly double the national average of 2.1%. These numbers were further backed up by wastewater sampling (2015) which showed 49 doses/1000 people/day. The 2016 National Wastewater Drug Monitoring Program showed 76 doses/1000 people/day for Bunbury and 58 doses/1000 people/day for the metropolitan area.

Although this most recent wastewater sampling has only been conducted in the metropolitan area and Bunbury these same figures would be a barometer for Lake Grace and other regional towns. Our police and ambulance officers have been facing up to the challenges that Ice presents for some time; along with encounters with party pills, marijuana and alcohol. Illicit drugs have already caused problems within families, businesses and our clubs and organisations; it's not pretty and as a group we need to work on a way of educating our community and minimising the harm.

# Bush Basket Making Workshop

*Kerrie Argent*

What a fabulous day, sitting and stitching up native grasses and found natural plant material to create some lovely baskets. There was a fabulous mixed group for this workshop with people coming from Lake Grace, Kulin, Dumbleyung, Narrogin, Wagin and Albany. Glenda Blythe brought all the materials that we could use during the workshop, to use and to give us all an idea of what we can start collecting to make more baskets and creations.

There are so many things that we can use for bush baskets and I think we will all be looking at our gardens in a new way, and seeing what can be used and what will work well, lots of fun playing and experimenting with the different fibres. Couch grass was a favourite as it is something that just about everyone has, but definitely want to get rid of, so creating it into something useful or simply having a use for it is great. Now there is a new purpose to these grasses, stubble, weeds, vines and leaves from our gardens.

these are all wonderful materials to make baskets out of as they are easily accessible. Ryegrass, the farmers curse, stitches up into beautiful strong baskets. It was lovely to have young Vallie who came along with her grandmother Carol from Kulin. Vallie finished and decorated her basket by the end of the day.

It's great to have young students join us.

The best part about this type of basket making is the fact there is very little cost involved; weeds we find in our garden, on the road sides or prunings from our gardens, A ball of string or thread and a tapestry needle, With a ball of thread and a needle you can make baskets wherever you go..

Thanks to Glenda Blyth from Geraldton who made time to come and teach us again, with a new group of students and who is also teaching a class in Dumbleyung today.

A busy and enjoyable day was had by all.

***Glenda Blyth demonstrating finishing off a piece of work.***

# Wheatbelt Doctors Punch Above Weight at Rural Awards

*Media Statement - Rural Health West*

Three doctors working in the Wheatbelt were recognised for their outstanding service and long-term commitment to rural communities at this year's Rural Health West Doctors' Service Awards held on 8 April.

Dr Steve Lai, a general surgeon based in Narrogin, received the Award for Extraordinary Contribution to Outreach Services. With a caring, compassionate nature Dr Lai has performed surgeries at Narrogin, Merredin and Katanning hospitals for more than 20 years, enabling Wheatbelt residents to access vital surgeries close to home.

Dr Olga Ward, who cares for patients living in Bruce Rock, Merredin, Narembene and Westonia, received the Award for Remote and Clinically Challenging Medicine. For the past 15 years, Dr Ward has boarded her plane 'Pinky' and flown between these rural locations to provide family medicine, women's health clinics, minor surgeries and emergency cover throughout the Eastern Wheatbelt.

Dr Ward said she has many memorable moments working in the Wheatbelt.

"There are lots of highlights including learning to play badminton – Southern Cross rules, watching the Westonia Hood-Penn museum come to life, eating yabbies from my receptionist's dam for lunch in Bruce Rock, and making lifelong friends with astonishingly talented and versatile people," Dr Ward said.

Dr Marie Fox from Grey Street Surgery was also recognised for her long-term service to rural

medicine, which spans 20 years.

The doctors were presented with trophies for their contributions to ensuring rural and remote communities have access to quality healthcare at the Rural Health West Awards Night and Gala Dinner.

Rural Health West Chief Executive Officer Tim Shackleton said it was a privilege to acknowledge the commitment of these rural doctors.

"Having continuity of care and building a relationship with your doctor is so important to people living in rural communities. It enables people to build rapport and trust with their local doctor which has a positive impact on their health," Mr Shackleton said.

"These doctors have dedicated their careers to supporting rural communities and should be proud of the contribution they have made to the health and wellbeing of people living in the Wheatbelt."

## Humour

### A Real Gut-Buster

A woman noticed her husband standing on the bathroom scale, sucking in his stomach. "Ha--! That's not going to help," she said.  
"Sure, it does," he said. "It's the only way I can see the numbers."

### New Words for 2017

These words are so joining our vocabulary in 2016!

**Chaidrobe (n.):** piling clothes on a chair in place of a closet or dresser.

**Epiphanot (n.):** an idea that seems like an amazing insight to the conceiver but is in fact pointless, mundane, stupid, or incorrect.

**Internest (n.):** the cocoon of blankets and pillows you gather around yourself while spending long periods of time on the Internet.

**Textpectation (n.):** the anticipation felt when waiting for a response to a text.

**Unkeyboardinated (adj.):** when you're unable to type without repeatedly making mistakes.

### Toto, We're Not in Cans Anymore...

# Sensational Food

Suzanne Reeves

*Food Sensations®* for Adults is a state wide nutrition and cooking program and it's going to be at the Lake Grace Community Resource Centre during the month of May. The sessions are good fun with participants taking part in an interactive session via videoconference before cooking a meal which everyone sits down to enjoy together.

It has been designed to give participants a good understanding of healthy eating, as well as skills in how to purchase and prepare healthy foods. All sessions are hands-on, fun and provide a safe environment to try new recipes and skills.

Funded by the WA Department of Health the four-week program consists of four sessions which cover the following:

Session 1 - 'Healthy eating and cooking'

Session 2 - 'Label reading, food selection and cooking'

Session 3 - 'Meal planning, budgeting and cooking'

Session 4 - Cooking and an optional topic

Participants must attend ALL four sessions.

This is the third time that the Lake Grace CRC has run the program, anyone wanting to take part is asked to give the CRC a call on 9865 1470. Places are limited.

## News From the ATO

Taken from [www.ato.gov.au/Newsroom/smallbusiness/](http://www.ato.gov.au/Newsroom/smallbusiness/)

### **Rewarding employees on top of their usual salary?**

Do you reward employees on top of their usual salary to show your appreciation for a job well done? It is important you keep track of the benefits you provide. It will also help you work out if you can claim any deductions for your business.

A company car or motorbike, use of a holiday home, gym memberships, accommodation, concert tickets or other lifestyle assets are usually considered fringe benefits, so it's important to keep a record of each asset and how it's used.

With the deadline for FBT returns on 21 May approaching, up-to-date records can help you get things right when you lodge your activity for the year.

Remember, registered tax agents and BAS agents can help you with tax and super advice.

### **BAS lodgement in April**

We are undertaking planned system maintenance in April and May to install new data storage hardware in time for Tax Time 2017.

We are carrying out this work over weekends and public holidays as much as possible to minimise the impact on you.

During this time our business systems will be unavailable, including:

- [ato.gov.au](http://ato.gov.au)

- Standard Business Reporting (SBR)
- AUSkey
- Australian Business Register
- ATO Online
- Business Portal.

### **Lodging and paying your BAS**

As our business systems will be unavailable over the Easter weekend, be sure to allow enough time to lodge your monthly or quarterly BAS by the due date.

**No chocolate  
for Easter this year?**

**How about some  
delicious WA made  
flavoured nuts!  
Available at the  
Lake Grace Visitor**

### Sudoku

- ☐ The Sudoku grid of rows and columns is divided into individual 3x3 boxes.
- ☐ The aim of the game is to fill each row, column and 3x3 box with the numbers 1 to 9.
- ☐ You can't repeat numbers in a row, column or 3x3 box and you can't change the numbers already in squares.
